February 14, 2025

Winchester Select Board and Finance Committee
Town Hall
71 Mount Vernon Street
Winchester, MA 01890

Dear Board and Committee Members,

I am pleased to submit the Town Manager's financial plan for Fiscal Year 2026 (July 1, 2025 through June 30, 2026), including municipal and school operating budgets, Recreation and Water & Sewer Enterprise Funds, funded debt, and capital projects. The budget as proposed totals $163,904,816 and was created with a commitment to maintaining level services.

In March 2019, the Town passed an override that included $8 million for operating expenses and $2 million for capital needs. When put forth to the voters, it was noted that the override would sustain the school and municipal budgets for approximately two to three years, starting with the FY20 budget. The full $10 million capacity of the override was used to balance the FY22 budget, and since that time staff and the Finance Committee have been able to make budget adjustments to extend the override beyond its original projections, with FY26 representing the sixth year since the override went into effect. In FY24, a reduction in the Town's health insurance rates due to a change of insurance providers allowed us to bridge the gap, resulting in a balanced budget. For FY25, the budget was balanced through a combination of increases in state aid, budget reductions, and the use of a modest amount of Free Cash ($262,859).

The current projected deficit for FY26 is significantly higher at $3,583,771, as growth in several key budgetary areas has outpaced revenue growth. It is important to note that expense and revenue projections will continue to evolve over the coming months as the Finance Committee prepares their budget for presentation to Town Meeting. On the revenue side, the Manager's budget makes use of state aid and assessment numbers provided in the Governor's budget, which was released in late January. These numbers will continue to be refined as the state budget makes its way through the House and Senate. On the expense side, the Town was notified two weeks ago of an 18.92% increase to our health insurance costs for active employees. The Manager's budget assumes a worst-case scenario with the full amount of this increase; however, staff will be working over the coming months to hopefully reduce these costs. Additionally, the School Committee has indicated that the budget voted at their meeting on January 30th represents a "Preliminary Level Services Budget", and that they will be conducting additional public outreach ahead of a vote on their "FY26 Recommended Budget" on March 13th, which leaves uncertainty surrounding the 5.84% school budget increase carried in the Manager's budget.

FY26 Budget Development Process

Town staff began the FY26 budget process in Fall 2024. Municipal departmental budget requests were submitted in early December and the Select Board convened a budget summit on January 10, 2025 with representatives from the Finance Committee, Capital Planning Committee, and School Committee to discuss FY26 budget estimates, capital needs, and three-year budget model projections for FY27 through FY29 to assess long-term trends and needs.

Revenue Projections

Total projected revenues for FY26 are $160,321,045. These projections were derived by increasing the general tax levy by the allowable 2.5%, and projecting tax revenues from new construction (*i.e.* "new growth"), estimating state aid, and projecting locally generated receipts such as motor vehicle excise tax, meals tax, building permit fees, investment income, and other revenues. Additional details are provided below.

- **Property Taxes** – Property tax remains the Town's primary revenue source, comprising approximately 65.3% of the total projected revenues in FY26. The Town's property tax levy is permitted to increase 2.5% over the prior year, plus the taxable value of new construction. Prior year new growth becomes part of the general tax levy base upon which future 2.5% increments are built. Based on the recommendation of the Director of Assessments, the new growth projection for FY26 is $800,000, which is reduced from prior years (FY25 budget = $1,059,299, FY24 actual = $1,041,723) as a result of an expected decrease in new construction.
- **State Aid** – State aid for FY26 is projected to be $13,125,570, which represents an increase of 3.3% over FY25, and is estimated at 8.2% of total FY26 revenues. This estimate is based on preliminary numbers provided in Governor Healey's FY26 budget dated January 22nd. These estimates are subject to change as the legislative process unfolds, and should be updated by the Finance Committee with best available information prior to Town Meeting.
- **Local Receipts** – Local receipt projections for FY26 represent an increase of 4.53% over the FY25 budget, and reflect projected increases in motor vehicle excise tax, meals tax, penalties and interest, and expected favorable investment income.
- **Overlay** – On January 24th, the Board of Assessor's voted to release $400,000 from the overlay account to the overlay surplus account. The Manager's budget includes the use of these funds as a source of revenue for the FY26 operating budget.
- **Employee Healthcare and Health Insurance Stabilization Fund** – The fund was established at the Spring 2022 Town Meeting to set aside reserves to help offset unforeseen increases in employee healthcare expenses. The Manager's budget includes the use of $125,000 from this fund.
- **Closure of Unallocated Wage Accounts to the General Fund** – Based on a recent ruling of the Department of Revenue, the Town will now be required to close out Unallocated Wage accounts annually, instead of allowing these accounts to carry over from year to year. Therefore, at the end of each fiscal year, any unused funds will close directly to the General Fund and ultimately become part of our certified Free Cash balance. This new practice will begin immediately with the closure of the remaining funds in the FY23 and FY24 unallocated wage accounts. The Manager's budget includes the use of this closed-out balance ($257,414) from Free Cash as a revenue source in FY26.
- **Use of Reserves** – In 2010, the Select Board adopted a formal Operating Reserves Policy, which stated the Board's objective to limit the amount of Free Cash used to balance the

operating budget to non-recurring expenditures, such as capital needs. The policy also lays out a goal of maintaining Operating Reserves between 6 and 10% of estimated general fund revenues.

As noted above, the Town used the full capacity of the operating override passed in March 2019 to balance the FY22 budget. Beginning in FY23, the Town has a structural deficit whereby the growth in revenues does not keep pace with the growth in costs necessary to maintain a level service budget. This budget relies on the use of $3,583,771 in Free Cash to close the gap for FY26. As currently projected, this deficit is expected to increase in the three-year budget model developed for FY27 through FY29, and will require action in the out years to ensure that the Town does not fall below the 6% minimum operating reserve specified in the 2010 policy.

Expenditures

Projected total expenditures for FY26 are $163,904,816, including municipal and school budgets, undistributed expenses, capital appropriations, non-appropriated expenses (state assessments, cherry sheet offsets, and overlay), enterprise fund subsidies, and other expenses.

- **Municipal Departments** – Municipal departmental expenses, including Unallocated Wages, are projected to increase 2.9% between FY25 and FY26, and comprise 21.6% of the total FY26 expense budget. This budget reflects a level service program (inclusive of step adjustments and wage increases), except for an increase in work hours for the building, plumbing and electrical inspectors in the Building Department from 20 to 25 hours a week. There is no change in benefit eligibility for these current employees.
- **School Department** – The FY26 budget allocation to the School Department is $70,004,563, representing an increase of 5.84% over the FY25 budget, and comprising 42.7% of the Town's total FY26 expense budget. As previously noted, the School Committee has indicated that they will not vote their recommended budget until March 13th.
- **Vocational Education** – The FY26 budget reflects a 35.5% increase in vocational expenses over the FY25 budget based on enrollment projections by the School Department for students attending Northeast Metropolitan Technical High School (NEMT), Minuteman Regional High School, Medford Vocational-Technical High School, and Essex North Shore Agricultural & Technical School. The budget also reflects a capital assessment of $73,250 to cover Winchester's portion of the FY26 debt service related to the NEMT reconstruction project.
- **Undistributed –** The "Undistributed" budget includes a number of expense categories that are mandated, shared, or not otherwise allocated to the municipal or school budgets, including energy costs, contributory retirement, worker's compensation, unemployment compensation, health insurance, Medicare tax, OPEB allocation, general insurance, reserve fund, and environmental remediation services.
    - *Health Insurance* **–** The FY26 health insurance budget projects significant growth over the FY25 budget due to unanticipated increases to both active and retiree healthcare costs. Discussions for the FY26 health insurance budget began in October 2024 with MIIA, our insurance provider. At that time the Town was notified of significant increases to the retiree Medicare supplemental plans (17% +), which renewed on January 1, 2025, and to expect a 10% rate increase on our active employee renewals effective July 1, 2025. Based on this guidance, senior management used the 10% renewal number for the purposes of preliminary budget

discussions. On February 3rd, the Town learned that our actual proposed FY26 renewal rate was significantly higher at 18.92%, resulting in an overall health insurance budget increase of 20.1% over FY25. Staff are working with our health insurance consultant to evaluate ways to reduce this impact; however, no changes will be in place by the deadline for submission of the Town Manager's budget on February 15th. Staff will work with the Finance Committee over the coming months to convey any budget adjustments ahead of Spring Town Meeting.

- *Energy* – Energy costs are projected to increase 3.6% in FY26, due to increases in natural gas and electricity costs, as well as conservative estimates related to utility costs at the new Lynch Elementary School that will come on-line in September 2025.
- *Contributory Retirement and OPEB* – The Contributory Retirement allocation for FY26 is $7,462,210 per the Massachusetts Public Employee Retirement Administration Commission (PERAC). The current actuarial study shows a final amortization payment of the unfunded liability in FY27 (Note: a new actuarial study is currently underway and will likely be released this summer). In 2023, the Select Board adopted a policy to create a long-term funding plan to pay down the Town's OPEB liability by taking advantage of the "pension windfall", *i.e.* funding that will become available once the Town fully funds the Winchester Contributory Retirement System's (WCRS) unfunded liability. The Town's budget model projects this shift in funds from pension to OPEB starting in FY27. Given this pending shift, the Manager's budget does not include an annual OPEB contribution in FY26.

- **Funded Debt** – The FY26 funded debt budget includes principal and interest payments on long-term permanent borrowings, and interest payments on short-term Bond Anticipation Notes (BANs) issued by the Town, including estimates for General Obligation Bonds and BANs that will be sold in March 2025. Staff will work with the Finance Committee to finalize the debt budget after this sale.

Moody's Bond Rating

The financial health of a community is reflected in part by the credit rating it earns when borrowing funds. The Town's Aaa bond rating was last reaffirmed by Moody's in June 2024, which is the highest rating available. In the most recent credit rating opinion, Moody's noted that the Aaa rating primarily reflects a strong economy that benefits from high resident income and wealth, a stable financial position with improving liquidity and reserves, although levels remain below-average for this highest rating category. Further, Moody's identified the following factors that could lead to a downgrading of the rating – decline in available reserves and/or liquidity as a percent of revenue, material increase in leverage and/or fixed costs, and a significant decline in resident income, wealth, or economic output.

Financial Outlook

The development of long-range financial projections for Winchester is key to understanding future trends in revenues, expenses, and operating reserves over the coming years. As part of the FY26 budget development process, senior management developed a budget model for FY27 though FY29 and completed a sensitivity analysis to evaluate three scenarios representing various revenue growth and expense projections. The model projects the operating reserves, including the use of Free Cash to balance future year budgets, over the three-year planning horizon.

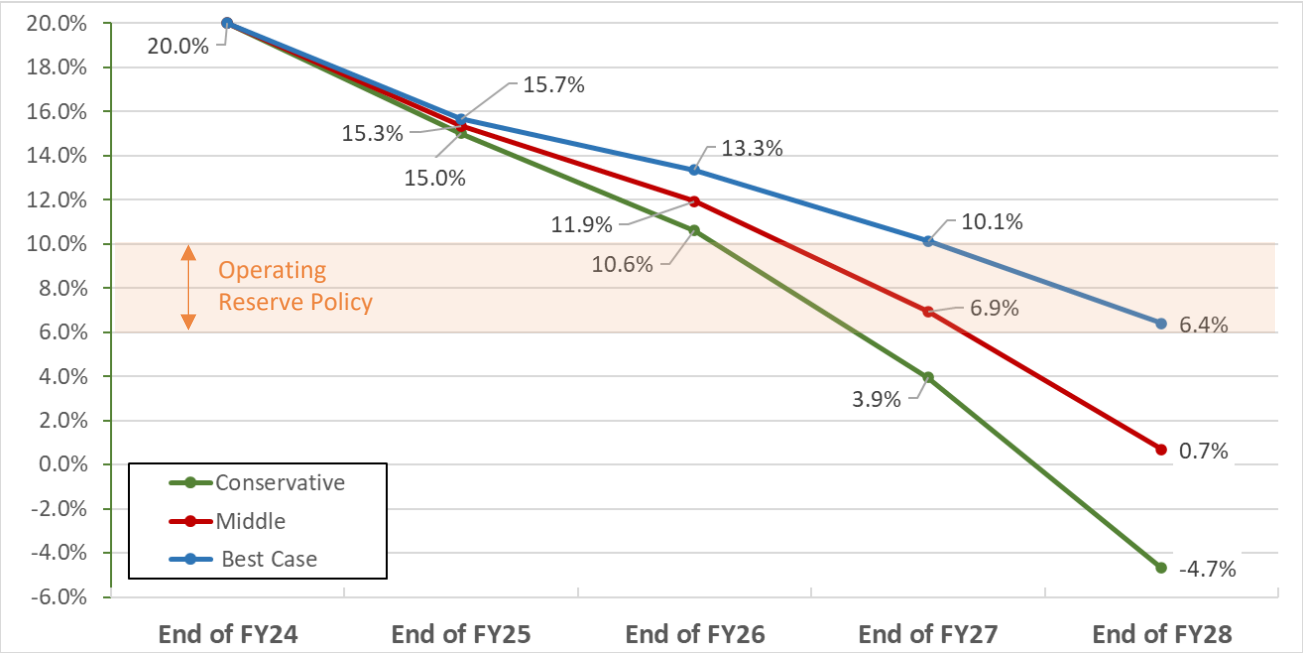
Below is a table summarizing the parameters used in the sensitivity analysis, as well as a figure showing the resulting operating deficit and Operating Reserve analysis for the end of FY25 through the end of FY28 (including the projected use of Free Cash to balance future year budgets). The known starting operating reserve at the end of FY24 (20%) is also shown based on the amount of Undesignated General Fund balance plus the General Stablization balance. The analysis assumes the use of $1.25 million of Free Cash at Spring Town Meeting for various needs, such as funding for departmental budgets to get through the current fiscal year, and replenishing the reserve fund.

Table 1 – Sensitivity Analysis Parameters

Category	Conservative	Middle	Best Case
Prior year Turnbacks	$1 million	$1.5 million	$2 million
Revenue			
New Growth	$800,000	$900,000	$1,000,000
State Aid	2% increase	2.5% increase	2.8% increase
Local Receipts	2% increase	2.5% increase	3% increase
Expense increases			
Total Municipal Departments	5.5%	4.56%*	3%
Total Education	6.5%	4.92%*	4%
Unallocated Wages	3%	2.5%	2%
Energy	5%	3%	2%
Health Insurance	14%	10%	5%

**Based on average of prior 11-years*

Figure 1 – Operating Reserve Projections

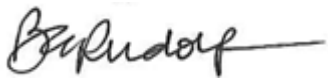


Conclusion

The long-term projections show that the structural deficit between revenue and expenses will grow over the three-year planning horizon resulting in an unsustainable pattern of Free Cash usage and reduction of the projected operating reserves below our 6% minimum threshold. It is critical that the Town consider options in the near term to address this growing deficit. The Select Board has recently indicated that they will reconstitute the State of the Town committee that served as advisors through the previous override discussions in 2019. I look forward to working with the committee over the coming months to develop a sustainable financial plan that supports the Town's long-term capital and operating needs.

Finally, I wish to extend my sincere thanks to Assistant Town Manager Mark Twogood, Comptroller Stacie Ward, Jennifer Cafarella in the Town Manager's Office, Superintendent Dr. Frank Hackett, School Department Director of Finance & Operations Andrew Marron, our municipal Department Heads, and members of the Select Board, School Committee, and Finance Committee for their work during this budgeting process.

Sincerely,



Beth Rudolph, PE
Town Manager

Program Description

The Select Board appoints the Town Manager, and most of the duties and responsibilities are detailed in the Town Charter, first adopted in 1975. The Manager is responsible for the day-to-day operations of the Town, including the appointment of department heads and employees not serving directly under elected boards, for the enforcement of State Law, Town by-laws and the Town Charter, and for preparing and administering the Town's annual budget, purchasing supplies and materials for all Town agencies, and awarding all contracts for all agencies. The Sustainability Department is included in the Town Manager's budget.

FY2026 Initiatives

- Continue management of the Town capital program in conjunction with Town staff and the Capital Planning Committee. Key initiatives for FY26 are:
    - Complete construction on the remaining flood mitigation project – installation of additional culvert under the railroad viaduct behind the Muraco School.
    - Complete the reconstruction of the South Reservoir Dam.
    - Obtain funding for the Everett Avenue culvert repairs and complete construction of Shore Road culvert project.
    - Complete construction on Town Hall, Library, McCall School, and Ambrose School roofs; Town Hall clock tower; and Library window replacement project.
    - Complete engineering of Packer Ellis Tennis Courts.
    - Complete construction on the new water pump station in McDonald Field to serve the Arbor Lane and Wendell Street neighborhood.
    - Complete reconstruction of the McDonald and Leonard Field playgrounds and installation of the new lights at Ginn Field.
- Work with the MBTA on completion of the Winchester Center Commuter Rail Station reconstruction project.
- Implement Town's Housing Production Plan in conjunction with various boards, committees, and Town staff.
- Work with Select Board to establish Town Committee to evaluate various operating override options and long-term financial planning.
- Assist in the implementation of the CPA (Community Preservation Act) and work with the newly created WCCP.
- Commence negotiating with all six municipal bargaining units for FY26 through FY28.
- Complete construction/reconstruction of Mystic School heating system.
- Complete construction of the Lynch Elementary School, scheduled to open in September 2026.

Prior Year Accomplishments

- Completed allocation of ARPA funds in December 2024 in conjunction with the Select Board.

- Managed the day-to-day operations of the Town under the policy direction of the Select Board.
- Managed the Town's capital program including coordination with Town staff on the development of new capital initiatives, coordination with the Town's Capital Planning Committee, and oversight of all capital projects funded by Town Meeting in conjunction with Town staff. Below is a summary of key capital initiatives during FY25.
    - Completed engineering and permitting for the South Reservoir Dam reconstruction project and began construction.
    - Completed repairs to the Cross and Washington Street bridges.
    - Design of traffic calming improvements in the Town Center using $500,000 state earmark.
    - Completed design for the traffic calming and pedestrian improvements related to the Lynch School renovation.
- Monitored MBTA's reconstruction of Winchester Center Commuter Rail Station and construction of the Eversource 345kV transmission line project.
- Oversee the LDA for the Town-owned property at the corner of Washington and Swanton Streets, and the LDA for the Waterfield Lot development.
- Completed the update to the Town's Housing Production Plan in coordination with the Planning Board and MAPC.
- Worked with the Edward J. Collins, Jr. Center for Public Management on the development of a Town-wide communications study.

FINANCE COMMITTEE

Program Description

The Finance Committee consists of fifteen voters appointed for staggered three-year terms. Five appointments are made annually by appointing committee consisting of the Moderator, and the Chairman of the Select Board and Finance Committee respectively. Under the provision of the Town Charter and By-Laws, the Finance Committee receives and reviews the proposed budget submitted by the Town Manager, and after public hearings, submits a budget to the Town Meeting. The ongoing function of the Committee is to act upon requests for "transfers"; i.e., appropriations from the Reserve Fund to meet extraordinary and unforeseen needs of town departments and agencies which may arise during the course of the fiscal year.

Program Description

The Comptroller is appointed by the Select Board and is responsible by Town Charter and State statute for maintaining the general and budgetary accounting records of the Town, preparing the weekly payroll and accounts payable warrants, preparing various financial reports of a statutory and/or administrative nature, developing methods of installation and supervision of all accounting records of the Town, developing standard practices relating to account matters, and the continuously reconciling, reviewing and auditing account balances and activity. The Comptroller provides budget and forecast planning support during the budget development process and as needed.

The Comptroller's Office administers the unemployment activity and the general insurance program which includes property, liability (and excess liability), public official, flood, vacancy and other coverage.

In addition to the day-to-day duties and responsibilities, the Comptroller's Office is responsible for preparing employee W-2's, vendor 1099's and Affordable Care Act 1095c forms annually. The Comptroller's Office also coordinates the annual financial statement audit, which includes providing a myriad of supporting documentation and analysis and coordinates the Other Post-Employment Benefits (OPEB) actuarial studies and roll-forwards, which includes preparing complex insurance and retiree census data.

The Comptroller is the ex-officio voting member of the Winchester Contributory Retirement Board, an ex-officio non-voting member of the Commissioners of Trust Funds and an ex-officio non-voting member of the Town's Retiree Health Insurance Advisory Committee.

FY2026 Initiatives

- Continue meeting internal and external deadlines.
- Continue to find ways to make operations more effective and efficient.
- Continue to provide training and other assistance associated with the accounting software.
- Continue to explore new programs in the accounting software to utilize.
- Implement more facets of the Tyler Content Manager program.
- Collaborate with Town Management to update the Financial Policies and Procedures Manual.
- Collaborate with Town Management to develop a formal risk assessment policy.

Prior Year Accomplishments

- Closed fiscal year 2024 timely in August 2024.
- Commenced the fiscal year 2024 audit in early September 2024.
- Issued FY24 Financial Statement drafts in November 2024.
- Obtained Department of Revenue's (DOR) certification of Free Cash in September of 2024.
- Prepared and filed DOR's Schedule A timely in November 2024.
- Obtained DOR's certified tax rate timely in November of 2024.
- Prepared W-2's, 1099's and 1095c by their respective deadlines.
- Issued the annual American Rescue Plan Act report to the Treasury.

Program Description

The Board of Assessors consists of three members elected by the voters for three-year terms. The Board is part-time and meet weekly at Town Hall. Assessors are required by Massachusetts law to value all real and personal property within their community. They also have responsibility for motor vehicle excise tax bills originated by the Registry of Motor Vehicles. By keeping values at the market standard, the Assessors assist in maximizing the resources available to fund municipal services.

FY2026 Initiatives

- Complete exempt properties
- Inspect commercial properties
- Update and resolve website GIS mapping issues

Prior Year Accomplishments

- Completed cyclical inspections
- Revaluation completed timely
- Exceeded new growth expectations

Program Description

The Treasurer / Collector's Office is responsible for the receipt and disbursement of all Town funds. Primary responsibilities of the Treasurer include the custody and investment of all Town general funds as well as Trust, OPEB and Stabilization Funds, the issuance and management of all long- and short-term debt, the management of all Tax Title accounts, management of deferred compensation plans, the issuance of payroll and vendor payments, reconciling and depositing all payments to the IRS and the Department of Revenue as well as accompanying required reporting. The Collector responsibilities include the issuance and collection of all real estate, personal property and motor vehicle excise tax bills, water and sewer bills, PILOT payments, Police details, parking tickets, and the issuance of Municipal Lien Certificates and Tax Title Liens.

FY2026 Initiatives

- Procedure Manuals have been created, and we are now in the editing phase. These manuals allow for consistent training with staff, especially newer staff members, by providing the necessary tools to be successful in their positions.
- Continue to maintain and provide a high level of customer service.
- Research additional online payment systems for various revenue streams.
- Continue maintaining high tax and collection revenue rate exceeding 95% for all Real Estate, Personal Property, Motor Vehicle Excise, and Water & Sewer bills.
- Continue the Tailings process established to address outstanding payroll and vendor checks.
- Work with the Town Manager and Town Counsel to accept Article 200A Section 9A at the 2025 Spring Town Meeting. This would allow the Town to escheat funds related to the Tailings process, instead of turning the funds over to the State.
- Begin work with the Assessors' office to process uncollectible Personal Property and Motor Vehicle bills

Prior Year Accomplishments

- Department Procedure manuals are created and will be edited when time allows.
- Maintained and provided a high level of customer service.
- Have successfully liened Taxes through FY2023.
- Online payment platforms are now available for Building and Engineering, Town Manager Departments.
- Maintained the high tax and collection revenue rate exceeding 95% for all Real Estate, Personal Property, Motor Vehicle Excise, and Water & Sewer bills.

- Tailings process was established. The office has currently issued letters to payees dating back to 2011 and have been able to successfully reissue approximately 245 checks.
- Hired a Financial Analyst.
- Began working with a Tax Title Attorney. Letters were sent out in February of 2024 to delinquent taxpayers for FY22 and FY23. This was crucial in increasing revenue on delinquent taxes for 2022 and 2023, prior to the Taking process.
- Reorganization of the office: to increase a better flow in the office, the Department now has Uplift Desks streamlining the appearance of the space. Documents have been reviewed and moved into permanent storage or destroyed where permissible under the State's Record Retention Laws. This allowed the removal of some file cabinets, creating better workspace.

AUDIT

Program Description

The Audit budget provides funding for the annual financial statement audit performed in accordance with generally accepted auditing standards and standards applicable to financial audits contained in Government Auditing Standards. A financial statement audit is an examination of the Town's books and records and includes the review of accounting transactions, policies, procedures, and internal controls. The Town is required to obtain a financial statement audit due to the level of federal funds expended and due to bond disclosure requirements.

The Select Board established an Audit Advisory Committee in 2006 to assist them in their oversight of the annual financial statement audit. The Audit Advisory Committee facilitates communication between the Select Board, the audit firm and town management. They also make recommendations related to the selection of the audit firm and review the financial statements and other audit reports regarding financial management issues. The Comptroller is responsible for the day-to-day management of the audit process and works closely with the audit firm. Fiscal year 2026 is the third year of a three-year contract with CliftonLarsonAllen LLP with a cost of $90,000.

The audit budget also provides funding for a biennial Other Post Employment Benefit (OPEB) actuarial valuation and consulting services. The Town currently provides postemployment benefits including medical, dental and life insurance to retirees and their dependents. The actuarial valuation is required to provide the necessary data associated with these benefits to comply with financial statement reporting and disclosure requirements in accordance with Governmental Accounting Standards Board Statements No.74 & 75. There will not be an OPEB actuarial valuation performed in FY26, therefore there are no funds being added for these services in the FY26 audit budget.

Program Description

The Engineering Department is dedicated to meeting the needs of Town departments, boards, committees, and residents. The projects and initiatives undertaken by the Department have a direct impact on the quality of services provided for our residents both in the short and long-term. The projects and policies initiated by the Engineering Department are intended to address on-going infrastructure, flooding, and traffic-related problems; improve educational, recreational, or open space facilities and resources; and meet state or federal requirements. In particular, the Engineering Department provides project management services and oversight for the planning, design, and construction of various infrastructure and capital projects, including flood mitigation, water, sewer, stormwater management, and traffic calming. Additionally, we conduct technical reviews and field inspections related to various private development projects that fall under the jurisdiction of the Planning Board, Zoning Board of Appeals, and the Conservation Commission. We maintain custody of all plans and engineering records for the Town, including property addresses, and zoning and assessor's maps. The Town Engineer chair's the Traffic Review Committee (TRC). The Engineering Department also administers the Town Center parking permit program for residents and employees.

FY2026 Initiatives

- Assist the Town Manager's office with the implementation of the Town's Flood Mitigation Program, including construction of the culvert at the railroad crossing behind the Muraco School, and long-term maintenance activities related to previously completed projects.
- Complete the Lynch School reconstruction and Lynch School Neighborhood Traffic Improvements.
- Continue design and permitting of the Downtown Improvement Plan, consisting of streetscape and safety improvements on Main Street, from the Quill Rotary to Mystic Valley Parkway and Waterfield Road at Thompson Street.
- Continue to administer and maintain compliance with the Town's MS4 stormwater permit.
- Complete rehabilitation of the Shore Road and Everett Ave. culverts.
- Administration of the NRD funds obtained by the Town for the design of improvements to Davidson Park.
- Complete engineering reviews of private development projects (including 40B developments) submitted to the Winchester Planning Board, Zoning Board of Appeals, and Conservation Commission.
- Provide construction inspection services for on-going Town and private development projects.

- Chair the Town's Traffic Review Committee (TRC) and work with the Select Board and Traffic and Transportation Advisory Committee (TTAC) to develop and implement safe pedestrian and motor vehicle transportation policies, and traffic calming projects.
- Oversee updates to the Town's GIS assessor's data, and other data layers.
- Administer the Town's FEMA Community Rating System (CRS) program, which provides residents with a 20% discount on their flood insurance.
- Participate in the Mystic River Steering Committee organized by EPA and the Resilient Mystic Collaborative organized by the Mystic River Watershed Association (Myra).

Prior Year Accomplishments

- Working with DPW, completed traffic calming improvements on Cross Street, including intersection improvements at Forest Street and Holton Street, sidewalk reconstruction between Forest Street and Cardinal Street, installation of speed humps at the Tri-community Greenway, and enhanced pavement markings.
- Submitted a Project Need Form and Project Scope to the Massachusetts Department of Transportation (MassDOT) for potential reconstruction of Symmes Corner, to determine eligibility for funding as part of the State Transportation Improvement Program.
- Oversaw construction of eight stormwater infiltration trenches to improve water quality, in conjunction with the Mystic River Watershed Association (MyRWA) and funded through a Section 319 Non-point Pollution Grant from the EPA.
- Obtained a $1 million grant from the Executive Office of Energy and Environmental Affairs (EEA) Dam and Seawall program towards the rehabilitation of the South Reservoir Dam.
- Assisted with construction of a new water pumping station for the Arbor Lane and Wendell Street neighborhoods;
- Completed repairs of the Washington Street and Cross Street bridges over the Aberjona River.
- Continued design and permitting of the Downtown Improvement Plan.
- Developed rehabilitation plans for the Everett Avenue and Shore Road culverts.
- Administered Permit Year 6 of EPA's MS4 stormwater permit (permit term July 1, 2024, through June 30, 2025).
- Coordinated with various public utilities on grants of location (GOL) and other infrastructure improvements.
- Provided technical reviews for projects submitted to the ZBA, Planning Board, and Conservation Commission.
- Provided inspectional services for a variety of private development projects.
- Coordinated with the MBTA on reconstruction of the Winchester Center Commuter Rail Station.

Program Description

The Building Department is responsible for enforcing the Massachusetts State Building code and the Winchester Zoning By-Law for all construction within Winchester. The Building Department issues permits and performs inspections for construction, wiring, plumbing and gas. In addition, the Building Commissioner acts as the Zoning Enforcement Officer pursuant to Massachusetts law, making formal determinations on the applicable use of land. The Building Department provides staff support to the Zoning Board of Appeals and serves as a resource to the Town when designing and construction of municipal buildings and related projects.

FY2026 Initiatives

- Oversee the 40B project on Cross St and act as the liaison between neighbors and the developer to address any issues as they arise.
- Work with Ken Pruitt to develop a curriculum for the local developers to assist them with the transition to the Opt-in Specialized Energy Code.
- Create a work group with the Arlington and Lexington Building Commissioners to discuss trends in our industry and maintain a level of consistency in our communities regarding building code/energy code requirements.
- Maintain a Board of Director status for the Massachusetts Building Commissioners and Inspectors Association.
- Create a builders' email distribution/forum to send updates pertaining to zoning and building codes requirements.

Prior Year Accomplishments

- Continued to improve user interface using OpenGov permitting. Improved workflow process on closing permits, flagging Historical & Flood Zone properties and developed a new code compliant Certificate of Occupancy certificate.
- Appointed Tony Rose as an alternate Plumbing Inspector.
- Completed 100% of Building, Electrical and Plumbing/Gas inspections at 25 River Street and issued a temporary CO which allowed residents to start moving into units. Final CO issued May 2024.
- Completed 100% of Building, Electrical and Plumbing/Gas inspections at 3 Wainwright and issued a temporary CO which allowed residents to start moving into units. Final CO issued June 2024.
- Hired Carla McGrath as our new Building/Zoning Application Coordinator.

- Implemented a new online payment process in OpenGov which has drastically improved the building permit application process.
- Continued to maintain professional, courteous and efficient service to our customers.

Program Description

The Conservation Commission is appointed by the Town Manager and is responsible for protecting the Town's natural resources. The Conservation Commission manages over 130+ acres of open space, dedicated to passive recreation and to the preservation of wildlife habitat. These areas give quiet refuge and an opportunity to experience nature and serve as habitat for wildlife. We do this on a small budget, making use of much volunteer help, both with Commission members and volunteers who donate their time to clear passages, build crossings, construct signs, and blaze trails. With each permit issued, we educate landowners in the importance of food and cover to native and migrating species and require them to landscape for their preservation. We are actively involved in promoting clean water, and work to ensure that discharges into waterbodies are free of pollutants. We have watched waterfowl and fish return to our waterways, the return of migrating herring, and the return of apex species - indicative of a healthy ecosystem. In the long term, it is these preserved areas, and the efforts of educated landowners, that will contribute to flood resilience, drought control, and a quality of life that incorporates nature and its many benefits.

FY2026 Initiatives

- Strengthen land stewards Program
- Improve user experience in Conservation areas with upgraded trails, boardwalks and bridges plus develop electronically accessible maps and signs.
- Improve accessibility in conservation areas and open spaces.
- Improve water quality in Wedge and Winter Ponds.
- Restore wildlife habitat, increase biodiversity and address climate change impacts.
- Draft regulations for Winchester Wetlands bylaw.
- Continue with Mill Pond, Judkins Pond and Wedge Pond shoreline restorations.
- Finalize and submit Open Space and Recreation Plan.
- Add a conservation area along the Aberjona River at Sunset Road, approximately 16 acres.
- Relandscape Davidson Park.

Prior Year Accomplishments

- Passage of the Community Preservation Act, allowing for funds to be dedicated for conservation and open space uses.
- Constructed informational kiosks, signs, and boardwalks for conservation areas and Vinson Owen Science park.
- Processed filings; provided environmental information and assistance to applicants.

- Provide volunteer opportunities for removal of invasive plant species at waterways and natural areas.
- Continued work on the "Aberjona Initiative", a landscaped restoration plan along Mill and Judkins Ponds, and extending to the post office.
- Installation of Miyawaki Forest (densely planted habitat for wildlife) in conservation area at Wright Locke Farm.
- Educational outreach at Town Day.

Program Description

Under the policy direction of the Planning Board and the general administration oversight of the Town Manager, the Planning Department performs work at both technical and professional levels to assist the Planning Board in the preparation and presentation of studies and plans regarding the long-term physical development of the Town, and in the Planning Board's recommendations on comprehensive land use planning, zoning analysis, subdivision and site plan review, design review, the planning aspects of specific projects, and any related matters.

FY2026 Initiatives

The Planning Board has outlined several key objectives for FY26, reflecting a commitment to improving processes, advancing planning initiatives, and addressing operational needs. These objectives aim to optimize development review, reengage with paused projects, and enhance technical support for the town's planning and engineering efforts.

- Enhancing Development Review Processes - Site Plan Review Audit: The Board will internally review and audit the current site plan review process. This initiative aims to assess how the process impacts development and departmental resources, ensuring it remains efficient, effective, and aligned with the town's development goals.
- Implementing the Economic Development Strategic Plan - Fostering Townwide Economic Development: The Board is committed to fostering sustainable, dynamic, and innovative economic development by implementing strategies outlined in Winchester's Economic Development Strategic Plan. This includes identifying opportunities to enhance the town's business climate and support long-term growth.
- Reinitiating Industrial District Planning - Light Industrial (IL District): Work on the Light Industrial District, previously paused due to MBTA 3A compliance efforts, will resume in FY26. The Board intends to reengage with the community and continue planning for this district to unlock its development potential and support Winchester's economic growth.
- Addressing Technical Resource Gaps - Part-Time/Temporary GIS Support: Over the past few years, the planning and engineering departments have fallen behind on mapping and GIS-related activities. The Board plans to allocate resources toward part-time or temporary GIS support to address these backlogs, improve data management, and enhance the efficiency of planning operations.
- Reviewing and Activating Past Plans - Evaluation of Previous Work: The Board will assess past plans and reports to identify opportunities for action on inactive or overlooked initiatives. This process ensures that prior efforts and recommendations are effectively leveraged to address current and future community needs.

- These objectives highlight the Planning Board's focus on streamlining operations, advancing community planning, and leveraging technical resources to meet Winchester's evolving needs.

Prior Year Accomplishments

During FY25, the Planning Board has achieved several significant milestones that enhance Winchester's planning efforts and address key community needs. These accomplishments reflect the Board's commitment to improving the town's capacity for long-term strategic planning, fostering sustainable development, and complying with state requirements.

- Expanded Department Capacity - Hiring of Ian Sexton, Assistant Town Planner: In August, Ian Sexton joined the team as Assistant Town Planner, significantly boosting the department's capacity. His addition allows the Board to dedicate more resources to both short- and long-term planning, resulting in more focused and effective efforts to shape Winchester's future.
- Rezoning for Growth and Opportunity - North Main Street Rezoning: The Planning Board successfully facilitated the rezoning of North Main Street, approved during the Fall Town Meeting. This change paves the way for new housing and business opportunities along the Main Street corridor, stretching from Skillings Road to the Woburn town line, fostering economic development and addressing housing needs.
- Compliance with State Housing Mandates - MBTA 3A Overlay District: The MBTA 3A overlay district was approved at the Spring Town Meeting and subsequently received the Attorney General's approval. The Planning Board has completed the required submission to the Executive Office of Housing and Livable Communities (EOHLC) on time and is awaiting final approval. The Board is confident that Winchester remains in full compliance with the guidelines.
- Securing Safe Harbor and Advancing Affordable Housing - Housing Production Plan 2024-2029: The Planning Board rewrote Winchester's Housing Production Plan to ensure the town remains in Safe Harbor status. This effort also progresses the community's commitment to pursuing new affordable housing opportunities and addressing critical housing needs.
- Protecting Funding Through ADU Compliance - Accessory Dwelling Unit (ADU) Compliance: The Board actively ensured compliance with ongoing state zoning and housing law changes, including those related to ADUs. By aligning with these regulations, Winchester retains its cooperative status and mitigates any future risk of funding restrictions associated with non-compliance.

These accomplishments underscore the Planning Board's proactive approach to enhancing Winchester's growth potential while ensuring alignment with state regulations and community goals.

LEGAL

Program Description

The Legal budget provides funds for all legal services utilized by the municipal government. Town Counsel is appointed by the Select Board and advises various Town boards, committees, and departments. They prepare or review contracts and other legal instruments for the Town, represent the Town in litigation and other matters, and generally supervise all legal matters. Also included in this budget are legal services not directly handled by Town Counsel, such as fees for special counsel retained for extraordinary legal matters as deemed necessary by the Select Board. This budget also provides funds for the Town's labor counsel that advises staff on collective bargaining agreements and other employment related disputes.

Program Description

The Human Resources Department provides a variety of services to all departments within the Town and assists department heads and employees with all issues related to employment. In addition, the Department is responsible for ADA oversight and compliance and for implementation of the Town's approved ADA Transition Plan.

FY2026 Initiatives

- Continue to act as a resource for department heads, employees, and the general public.
- Implement a consistent performance evaluation document and process for all employees, non-union and union. Specifically, work with individual departments to determine if a variation of the document can be created to better suit the needs of each department.
- Work with different departments to increase training for employees on specific issues.
- Continue to transition all human resources related functions in other departments to the Human Resources Department.
- Track and maintain records on trending human resources related issues, especially those amongst employees and departments.
- Continue to oversee ADA compliance and to work with the Engineering Department in order to complete ADA related projects.
- Continue to work with the Disability Access Commission to increase disability awareness.
- Update the costs associated with and implement the 2019 ADA Transition Plan to fix the ADA deficits identified in Town Hall and Library. The High School will be reviewed by a sub-committee to determine next steps.
- Increase wellness programming to further develop the program and increase employee engagement.

Prior Year Accomplishments

- Provided tailored trainings to various departments
- Full transitioned benefit administration from the Comptrollers Office to HR.
- Increased awareness of HR services to departments.
- Increased communication and availability of HR personnel to departments
- Assisted department heads in the recruiting process, labor relations, and other employee related matters.
- Significantly increased Wellness engagement for Town employees.
- Increased Wellness grant funding from MIIA to offer excursive equipment for the public safety buildings, standing desks and Fresh Fridges for Town employees.

- Revise, established, and implemented a fully functioning process for department heads to follow for new hires and for new hires to complete benefits paperwork online or through the mail while working remotely.
- Created and continued to manage a new process for notification and posting of job vacancies.
- Provided courteous attention and assistance to our employees as well as the general public.
- Worked with the Engineering Department to complete various ADA projects.
- Oversaw the Disability Access Commission and worked with members to promote disability awareness and be proactive on ADA issues.
- Worked with the Special Projects Manager to hire a consultant for correcting ADA deficits at the Town Hall and Library.
- Successfully took over the Employee Self Service Program which allows employees to access their wages, W2s, and deductions.
- Learned the software and managed the creation of ID Badges for Town employees.
- Assisted in successfully negotiating collective bargaining agreements for three unions and negotiating improvements and benefits for non-union employees.

Program Description
The objective of the IT Department is to support the Town's network, keep it up and running year-round. We also supply and maintain the equipment and software end users need to perform their jobs

FY2026 Initiatives

- Set up SharePoint
- Migrate all computers to Windows 11
- Work with AudioEye to help the Town's website meet ADA requirements.
- Continue working with the State on Cyber Security Training for Town employees.
- Manage the Town servers.
- Manage the MFA programs.
- Manage Service Desk.
- Maintain the fiber optic network infrastructure.
- Update desktops, laptops, printers, and Application Software.
- Manage the VoIP phone system.
- Continue working with the School's IT department to support the Town's network.

Prior Year Accomplishments

- Completed the 3 Broadband fiber projects.
- Upgraded all the Wireless Access Points.
- Implemented MFA programs.
- Migrated AssessPro to the Cloud.
- Managed the Town servers.
- Worked with the State on Cyber Security Training for Town employees.
- Continue to maintain the fiber optic network infrastructure.
- Updated desktops, laptops, printers, and Application Software.
- Managed the VoIP phone system.
- Worked with the School's IT department to support the Town's network.

GENERAL SERVICES

Program Description

The General Services budget supports town-wide costs associated with many Town departments and is administered jointly by the Comptroller's Office and the Town Manager's Office. The costs supported by this budget include the VOIP phone system usage and maintenance, the purchase of paper, form stock and other office supplies and materials used by many town offices, the cost of shredding confidential documents and the cost to operate, lease and fund the central postage machine.

Program Description

As the primary provider of information, the Town Clerk's Office serves as the Chief Election Official, Official Recording Officer, and Record's Access Officer for the Town Government, State Ethics Liaison, Licensing Official, Notary Public and Commissioner to Qualify and the Clerk to the Town Meeting, Town Hall Records Administrator, Registrar of Vital Statistics and Registrar of Voters. The Town Clerk assists management in a variety of projects and initiatives upon request.

It is the mission of the Town Clerk's Office to promote public confidence, goodwill and to provide excellent customer service to the general public. The Town Clerk's Office upholds the integrity of the democratic process, maintains, and preserves public records, and fosters cooperation and coordination between departments as well as acts in the best interest of the community and the Commonwealth by providing innovative, efficient, quality service.

Most importantly, the Winchester Town Clerk's Office manages the electoral process through fair, open, transparent, and consistent administration of all federal, state, and local election laws. The Town Clerk provides educational opportunities to those residents and voters who may be interested in the structure of our town government and its electoral process. Training opportunities are available to those voters in Winchester who would like to serve as Poll Workers.

FY2026 Initiatives

- Continue to provide and manage the decennial review amendments with the Attorney General and General Code to accurately codify the legal document of the Town of Winchester known as the Code of Bylaws.
- Continued to be an essential team leader for management in the administration of the Transfer Station's license plate reader technology for 2025-2026 permit sales.
- Administer the Annual 2026 Town Election, Vote by Mail and Early Voting in Person.
- Research the ability to collect the 2026 Town Census electronically. Hoping to produce greater efficiency as well as provide budgetary savings.
- Work with TownHall 247 to provide greater online offerings from the Town Clerk's Office.
- Review and analyze long term space needs for permanent records of the Town particularly the vital records, birth, marriage and death records.

Prior Year Accomplishments

- Successfully administered four elections in calendar year 2024 with accuracy and efficiency. Continued to implement efficiencies at the new polling location site located at Winchester High School for Precincts 1 – 8 in cooperation with the school district.
- Provide staff assistance to the Town Counsel and the Committee on Gov't Regulations to conduct the 10-year review of the Code of Bylaw for presentation to the Spring Town Meeting 2025.
- Developed best practices in election administration by implementing the use of PollPad technology for all Early and Vote by Mail processing for all elections.
- Introduced the use of high-speed ballot counting machines for the 2024 election cycle. Conduct training and execution of this new technology for ballot counting and security.
- Recruited and trained a new generation of Poll Workers for the Town. Created and implemented new Poll Worker Training Manual.
- Successfully created and managed a student volunteer program with the WHS National Honor Society to provide work experience for the students on Election Days.
- Essential team leader in the execution and administration of the new license plate reader program for the transfer station permit sales.
- Continued to serve upon management's request, with the ongoing project work developed by and with the Collins Center regarding the towns Communications Plan and website review

Program Description
The mission of the Health Department is to promote a healthy community by protecting the public's health and well-being through prevention and control of communicable disease and environmental health hazards.

FY2026 Initiatives

- Continue education, prevention and mitigation response to respiratory illness data, including flu and COVID-19.
- Utilize additional opioid settlement funding for substance use disorder prevention, treatment and harm reduction measures.
- Continued promotion of resources and connections to mental health care and deliver educational and prevention messaging.
- Increase outreach and education to community for rodent control, tick and mosquito-borne disease prevention and other vectors especially as they relate to climate change.
- Continue to offer immunizations for the public including annual flu and COVID clinics, pneumonia, tetanus and shingles clinics, as well as blood pressure and TB screenings.
- Begin to offer RSV vaccination as part of HD vaccine clinics.
- Continue to offer vaccination programs for children including mandatory childhood vaccines and optional HPV vaccination.
- Hold school-based flu immunization clinic program in every school in collaboration with the School Department for the 17th year.
- Carry out all mandatory inspection and permitting requirements: food service, housing, pools, camps for children, wells, beach, Title V, etc.
- Contract with U.S. Wildlife Service for Canada geese control and contract with the Eastern Middlesex Mosquito Control District for mosquito control activities.
- Collaborate with police department to provide for medication and sharps kiosk collection in addition to holding two annual medication and sharps collection days.

Prior Year Accomplishments

- Assisted the BOH with modification and adoption of regulations: "Retail Sale of Tobacco", prohibiting the sale of tobacco products to anyone born on or after January 1, 2004, and "Feeding of Wildlife Prohibition."
- Offered timely prevention and education messaging to community for communicable illnesses, including COVID, RSV, Flu, Norovirus.

- Continued free distribution of COVID home test kits to the public and town entities, including all school nurses. Town ARPA funds were used for purchase.
- Operated 3 COVID vaccine clinics to all age groups; 368 vaccines administered.
- Operated annual flu vaccine clinics:
    - 16th annual school clinics were held during the school day in all 7 schools with continued collaboration between the Health Department and School Nurses.
    - 1068 students and 225 staff received their flu vaccine (including shot and FluMist).
    - General Public Flu Clinics: 6 clinics, office appointments and home visits for a total of 843 flu vaccines administered.
- Utilized opioid settlement funding including: to support sober living expenses, contract with a certified Recovery Coach, Narcan kit distribution, administer Community Needs Assessment, and more.
- In addition to holding monthly meetings of the Winchester Coalition for a Safer Community (WCSC), the Community Health Program Manager (CHPM) arranged for the following programs (highlights):
    - McCall Open House: display to educate Middle School parent/caregiver community on the latest harmful vape nicotine, THC gummy and Zyn pouch nicotine products.
    - "Smartphone Sense" presentation by Dr. Alison Baker to share her research on the benefit of delaying smartphone use.
    - "A Pragmatic Approach to Kids and Social Technologies" presentation by Dr. Lisa Damour to offer parents strategies to overcome challenges of parenting in the digital age.
- Environmental Health Inspector conducted 281 inspections for compliance and/or permitting purposes: all seasonal and permanent food service activities, new food establishments, camps for children, semi-public pools, housing complaints, as well as investigation into public health nuisance complaints.
- Offered 8 free Household Hazardous Waste Collection events for residents through the Minuteman collaborative at the Lexington DPW.
- Held 2 medication/sharps disposal days in collaboration with the Winchester Police Department, U.S. Drug Enforcement Agency, and WHS volunteers. Continued to collect meds and sharps 24/7 at kiosk in police station lobby. Total sharps collected = 1300 lbs and Total Meds Collected = 834 lbs.
- Administered routine immunizations for children in region who are in need (51) and continued to provide shingles, Tdap and updated pneumonia vaccination to eligible adult residents (27).
- Investigated and provided case management on 112 communicable disease cases (non-COVID, non-Influenza).
- Contracted for mosquito control and surveillance of West Nile Virus with the Eastern Middlesex Mosquito Control District.
- Continued to offer subsidized tick analysis program for residents with support from Winchester Hospital/Lahey.
- Contracted with U.S. Wildlife Service for Canada geese control.

Program Description

The Council on Aging (COA) is the local government agency, established by Massachusetts Law, to meet the needs of older adults within the community. The mission of the Winchester COA is to identify the needs of Winchester's seniors and to meet those needs through services, education and advocacy. The COA is governed by an eleven-member Board appointed by the Select Board. Professional staff assist the Board in carrying out its Mission.

The staff consists of the following: director, licensed social worker, registered nurse, transportation coordinator, administrative secretary, senor clerk and three part-time drivers to implement the Council on Aging's programs and services. In addition, the COA contracts consultative services with a financial counselor, nutritionist and pickleball instructor. Over 50 volunteers play an integral role in fulfilling the COA mission.

Approximately 3300 individual unduplicated clients received direct professional services in 2024 relating primarily to health maintenance, case management, food insecurity, nutrition and dining, transportation services, educational programs and events, information and referral to access resources. A majority of clients are age 75 and older and most are women. The COA continues to serve a growing population of Chinese speaking older adults, over 150 unduplicated contacts per week.

FY2026 Initiatives

- Continue to work with the Winchester Chamber of Commerce to develop and implement employment fairs and skills development to foster economic security for Winchester's older adults. In addition, increase tax abatement placements within Town government and Winchester Public Schools.
- To enhance nutritional offerings, offer breakfast meals once a month catered by outside vendor serving up to 60 patrons per month.
- Continue efforts with COA board, Winchester Seniors Association board and Winchester Seniors Association Trust board, developing a Jenks space optimization strategic plan.
- With Town Planning staff and Planning Board, continue efforts to develop Age-Friendly Winchester workplan.
- Continue work to develop intergenerational programs with high school and middle school students.
- Plan Symposium on "Artificial Intelligence: What is It and How can it Foster Healthy Aging and Independence for Older Adults".

- With nurse and social worker, maximize media notices regarding caregiver respite program providing caregivers with three hours a day to tend to personal tasks while COA staff address needs of their loved one with games, puzzles, music, art and more.
- Work with COA financial counsellor to expand education to patrons regarding tax savings offered through Winchester, State and Federal governments.
- Development of "Solo Agers" and "Generation X--Sandwich Generation" support groups and resource directory.
- Planning efforts for the Jenks Center 50th anniversary in 2028—oral histories with Jenks founders of 1970s, patrons in the 1980s and 1990s as well as digitalization of archives.

Prior Year Accomplishments

- Implementation of grant funding from EnKa Society for development and implementation of bilingual (Mandarin and English) electronic signage in the Jenks lobby and individual rooms denoting what programs and services are held in respective rooms.
- Promoted economic security through continuance of tax abatement program with ten residents receiving $1500 abatement. Developed new guidelines for 2025 program, awaiting adoption by Select Board. Partnered with the Winchester Chamber of Commerce hosting an employment fair with 12 vendors and 52 participants seeking employment opportunities, of whom four were hired on site.
- Director and board member, Philip Bushey, served on the Town's Housing Production Plan workgroup that that drafted recommendations to create more housing and specifically provide seniors with opportunities to downsize.
- Continuation of multiple transportation initiatives to benefit Winchester's older adults. The fleet of Jenks Shuttle bus and medical transportation van have been actively engaged providing over 500 trips throughout the year to medical appointments, shopping, cultural events and visiting assisted living facilities (a new venue this year). In addition, 20 volunteer drivers offered 494 rides to residents. A per diem driver was hired to assist with the demand and the COA will purchase a hybrid sedan to further accommodate transportation requests. Per diem driver will be included in 2026 Town personnel budget.
- The COA received an additional three-year grant award from the Cummings Foundation in the amount of $150,000 to continue additional in-person instruction and virtual instruction for ESL and American Citizenship classes. Funding also included the hire of an "ambassador", Michelle Zhang, a Mandarin speaking consultant assisting with translation, survey assessments and programing to promote cultural competency.
- The COA nurse continued blood pressure and diabetes screening clinics at the Jenks and Winchester Housing Authority. In addition, she piloted a new program "caregiver respite" allowing caregivers to bring vulnerable loved ones to Jenks for education, music and lunch while they have 3 hours of free time to tend to personal matters.
- The Jenks Center assisted the Winchester Board of Health by facilitating the use of the building for multiple Covid vaccination clinics along with boosters and high-dose flu shots. The Red Cross continues to sponsor quarterly blood drives at the Jenks.
- Education programs provided legal, financial and medical information (retirement preparedness, Medicare enrollment, healthcare proxies, trusts/wills, etc.)
- Continued partnership with Minuteman Senior Services to reimagine congregate dining programs with addition of Traveling Chef in which chefs from Trio Catering come to Jenks to prepare and serve food—most notably patrons enjoyed a BBQ in August, homemade potpies in

November and carving station in December. Received $15,000 ARPA funding from the Select Board to be utilized for nutritional enhancements in November and December 2024.

- With Planning Director and Planning Board, relaunched Age-Friendly Winchester initiative with an educational forum with 34 attendees. Surveys were also provided.
- Continued collaboration with Winchester Seniors Association and Winchester Seniors Association Trust to maximize organizational efficiencies and share resources.
- Hosted Symposium "Super Agers: Who are they and their impact to healthcare and the economy" that included a panel of Jenks super-agers in their mid-90s. Over 225 patrons attended.
- With Winchester Public Library, developed "Sociological Book Club" at Jenks with over 20 active patrons.

VETERANS SERVICES

Program Description

State statue require each Massachusetts municipality to administer the State's General Assistance to Veterans program rather than require this assistance to filter through the regional general welfare services offices located in various areas of the State. The Veterans' Agent assists Winchester veterans in obtaining payments they are permitted to receive under various State and Federal laws. The Town is reimbursed for 75% of the payments made. It is noted that over the past several years the annual requirements and payments to eligible veterans has declined.

Program Description

The Winchester Public Library is under the jurisdiction of a five-member elected Board of Trustees. The Library disseminates information on a broad array of topics related to work, school, and personal life; provides lifelong learning opportunities for adults and children; and endeavors to improve the quality of life for its patrons by providing current topics and titles for their relaxation and reflection. Professional Information Services librarians guide users to its collection of current materials as well as the combined resources of the Minuteman Library Network and the worldwide resources of information available through technology. Our Children's Department supports Winchester's students and teachers with curriculum enhancing materials and educational and entertaining programs and materials for preschoolers. The Library serves as a community center, connecting citizens to community groups, organizations, and local resources while helping to build a strong sense of community. The Library also provides meeting space and quiet study rooms.

The Winchester Public Library is here for every citizen of Winchester, improving the quality of life from infancy through the senior years. Most associate our services with serving students of all ages but the reality is that our educational programs, collections, and equipment benefit everyone. The year 2024-2025 continued some of the pandemic-era changes but ended others. For example, the Library hosted a few virtual programs and a number of programs outside in nice weather as well as an increased number of highly attended programs inside. We have continued to receive thanks from residents about handing out COVID test kits, when supplies are available, and continued efforts in cleaning to keep staff and residents safe and healthy. Health and safety have also been improved in other ways, including a new security camera system and new public bathroom locks with occupancy indicators.

This budget fulfills all requirements for state certification by the Massachusetts Board of Library Commissioners allowing residents to borrow materials from libraries across the state.
The Winchester Public Library is a dynamic community resource that endeavors to improve the quality of life for its Library patrons by providing:

- the resources, services and support they need to make informed decisions, resolve issues or answer questions.

- children and teens with the programs, services, and materials they need to succeed in school and satisfy their educational and recreational interests as they grow from infants to young adults.
- the resources they need to explore topics of personal interest and to support intellectual growth throughout their lives.
- a safe and welcoming physical space to meet and interact with others or to sit quietly and read and have access to the ever-growing resources and services available through the library's web site.

To accomplish these endeavors, the Library relies upon a professional staff, a broad collection of current materials in a variety of formats, current information technology, and a well-maintained facility for patrons.

FY2026 Initiatives

- Continue upgrades of the Library's technology and infrastructure, including potentially a new projector and PA system in the Large Meeting Room
- Continued focus on safety and security, potentially including an updated security system and fire panel system
- Complete the strategic / long-range planning process to gauge the wants and needs of the community and envision how the space in the Library may be used differently

Prior Year Accomplishments

- A Chinese foreign language collection geared towards adults was created and advertised through local partners like the grantor, EnKa, and Mount Vernon House
- A new security camera system and new selfcheck machines were acquired, and a new phone system will soon be installed
- Not only has turnover slowed, those positions that became vacant were filled with creative and qualified staff. This includes longtime Info Services librarians as well as custodial and Circulation staff

External Funding Sources

The Library receives outside funds from four different sources: State Aid, grants, donations from private individuals, and Endowment and Trust Fund income.
The Library is eligible each year for a state aid program that is contingent upon the Library meeting State certification requirements. This aid is used to supplement Town appropriated funds. Our FY24 award was $50,184.22.

The Library applies for grants to fund outreach efforts, special programs, and projects. In FY2024, gifts from individuals, all with specified intentions, totaled $17,994, including a $10,000 bequest from the Christine H Porto trust. These gifts from private individuals are held in designated gift accounts and used for their intended purpose – typically books in honor of someone, museum passes, benches, etc. We are grateful for continued support from Mt. Vernon House for $3,000 in both Aug 2023 and June 2024, to be used toward the purchase of large print books.

Private donations have led to the establishment of Trust Fund accounts and the Endowment Fund. Trust Fund income ($10,900) is used to make book selections according to the wishes of the donor. Gifts to

the Endowment Fund totaled $19,908 in FY24. Endowment Fund income is restricted to enriching and enhancing Library operations and services.

We are grateful for the support of our Friends of the Library. They received grants from the John and Mary Murphy Educational Foundation, En Ka, and the Rotary Club of Winchester as well as generous contributions from private individuals. The Friends fund all our Adult and Children's programming throughout the year, museum passes, and the library newsletter sent to all households in Winchester.

Program Description

The Archival Center functions as the repository for historical documents, photographs and media pertaining to the history of the town of Winchester. It is located on the ground floor of Town Hall and is supervised by the Town Clerk and overseen by the Archives Advisory Committee (AAC).

FY2026 Objectives

- To maintain public access to the collections through appointments and research assistance.
- To maintain public awareness of local history through exhibits, Winchester History Online, and social media.
- To augment the online catalog.
- To evaluate the position of archivist as part of a records clerk position

Prior Year Accomplishments

- Dr. Ellen Knight continued her work as Reference Archivist. Susan Keats joined the Archives Advisory Committee.
- Dr. Knight maintained 6 open hours on Mondays and contributed 6 hours/week through remote assistance or special appointments.
- The Archivist continued to assist town departments and boards with information and photographs. In particular, along with Ms. Keats, she helped build a database of historic properties in the town to aid the Planning Board. She also answered queries from the public, including Historical Society speakers and a PBS “American Masters” producer.
- The Archivist continued entering photograph collections into PastPerfect. The online catalog continues to be a popular resource, receiving thousands of hits annually.

Staffing					
Managerial	0	0	0	0	
Clerical	0	0	0	0	
Professional/Technical	0	0	0	0	
Total	0	0	0	0	0

Program Description
The mission of the Historical Commission is the preservation, protection, and development of our town's historical or archeological assets, and the establishment of protective measures of these assets for future generations.

FY2026 Initiatives

- Continued management of demolition permit applications for properties covered under Chapter 14 of the town's bylaws.
- Pursuit of our fourth grant from Massachusetts Historical Commission to continue the town survey of town's seven neighborhoods.
    - Under the grant, we plan to undertake the fourth phase of our town-wide historical survey, focusing on the West Side.
    - Our 2022, 2023, and 2024 grant applications were denied due to limited state funds and high demand from other Massachusetts communities.
- Continued involvement and engagement in relevant town projects such as: o All Board of Appeals petitions
    - All Center Business District petitions through CBD Review Subcommittee o LHD Study Committee (Symmes Corner neighborhood) o Possible revival of town center LHD Study Committee
    - Town Hall roof and window replacement/repair o Town Library roof and window replacement/repair
    - Public Safety Building
- Advice and counsel for other town boards/commissions and staff, as needed:
    - Select Board
    - Planning Board
    - School Committee
    - Board of Appeals
    - Design Review Committee
    - Town Meeting
    - Town staff, including (but not limited to):
        - Town Manager & Ass't Town Manager
        - Building Inspector
        - Town Planner

Prior Year Accomplishments

- Completed third survey, Symmes Corner.
- Conducted four public hearings on demolition permit applications. o Imposed a 12-month delay of issuance of permit on one application.
    - Granted a conditional permit on one after a hearing.
    - Granted permit after hearing on two applications.
    - Waived a hearing on four applications.
- Reviewed 22 Board of Appeals petitions.
- Reviewed four petitions for projects in Center Business District.
- Participated in the search for and selection of the new Town Planner.

Program Description

The Police Department's primary function is the enforcement of laws and protection of life and property. This includes prevention of crime, preservation of the peace, law enforcement and detection of violators. When law violators are detected, they can be cited, summonsed or arrested. In the case of juveniles and young adults, when appropriate the police department can utilize various diversion programs to prevent a juvenile or young adult from having a criminal record. The Police Department responds to emergencies, provides for the efficient movement of motor vehicle and pedestrian traffic, trains and supervises school crossing guards, animal control officer, public safety dispatchers, and the parking enforcement officer. The Police Department over the past several years has committed to the philosophy of community policing by forming alliances and partnerships with other communities, community groups, instituting new programs and the use of technology. Through an alliance with NEMLEC (North Eastern Massachusetts Law Enforcement Council), the Police Department shares valuable resources with 59 other police departments in northeastern Massachusetts. Locally, the Police Department works closely with many community groups and organizations, such as the School Department and WCSC (Winchester Coalition for a Safer Community through the Health Department). Community Policing based programs include the STARS Programs (Safety in our schools) and our on-going "Violence in the Work Place" education program for our local businesses and Town departments. Through the use of our Web Page, Twitter, Facebook, the Department continues to educate the community in crime prevention and public safety activities.

Budget Statement:

The FY2026 budget reflects a level of funding to support the Administration, Patrol Division, Investigative Division, School Resource Officer program, Community Resource Officer, Civilian Dispatch staffing, Parking Enforcement, School Traffic Crossing Guards and the department's Mental Health Social Worker position. This budget also addresses the repetitive upgrading and replacement of vehicles, equipment, technology and associated maintenance. It addresses the need for Parking Enforcement capabilities in the town center and adjacent lots. The FY2026 budget does not account for superior

officer, patrol officer secretary unions who are currently starting contract negotiations with the town. All three union contracts end the last day of FY25. The FY26 budget does not take into account any cost of living increase for non-union employees. The budget does request that the vehicle replacement schedule stay at two cruisers per year for FY26.

External Funding:

- For FY2025 the police department received two reimbursable grants from the State 911 Department. The two grants are the state 911 training grant which is reimbursable up to $18,201.04 and the state 911 support grant that is reimbursable up to $65,826.
- The training grant is to assist in training, certifying and recertifying our 911 PSAP (Public Safety Answering Point) dispatchers in various aspects of public safety dispatching. This training is ongoing annually.
- The support grant can be used to purchase certain equipment directly associated with our Dispatch Center (Fire, Police.EMS) or to provide additional PSAP coverage during times when it is determined that it is needed.
- These grants must be applied for annually.

FY2026 Initiatives

- Hire at least two to three more new officers to fill current open positions in patrol.
- POST certify officers with last names starting with A-H
- Field train three to five officers graduating MPTC academies.
- Start new contract negotiations with superior officer, patrol officer and secretary unions for FY26-FY28.
- Update the police department's network servers, switches and workstations with both hardware upgrades and software updates.
- On-going objective to provide a proper work environment for all employees to include building cleanliness and maintenance, proper tools and equipment to do their jobs and competent, appropriate and responsive supervision continues. This is a day after day, year after year objective.

Prior Year Accomplishments

- Hired three new patrol officers. One is currently in a MPTC academy scheduled to graduate in spring 2025. The two other officers will enter an academy late 2024 or early 2025.
- Hired one full-time civilian dispatcher, one part-time civilian dispatcher and one seasonal civilian dispatcher.
- Able to complete the required POST certification for all officers with last names between Q-Z. This will complete the entire department as being POST certified. The process will now repeat itself in a three year rotation.
- Promoted two Lieutenants and two Sergeants. The command staff is now fully staffed.
- Department was successfully re-accredited for the next two years.
- Settled patrol union contract for FY23-FY25.
- Transitioned department email from onsite exchange servers to cloud based Microsoft 360.
- New camera security system, door access controls and lighting at the Town Hall installed and functioning.

Program Description

The Fire Department operates two stations: Fire Headquarters is located at 32 Mount Vernon Street and the West Side Station is at 45 Lockeland Road. The Department employs a staff of 1 Chief, 1 Administrative Assistant, 1 Deputy Chief, 5 Captains, 9 Lieutenants and 36 Firefighters. Two fire engines, one aerial ladder truck and one ambulance are staffed with a minimum of 9 firefighters on each of 4 duty shifts: a staffing level below the current professional standard. The department is responsible for: Fire Protection - response to fire emergencies, rescue operation, and protection of property. Also required for this operation is maintenance of equipment and training of personnel to adequately respond to emergencies; Fire Prevention - fire inspections of both public and private buildings to ensure compliance with all safety requirements of laws and regulations; Emergency Medical Assistance - staffing, training, and materials for the delivery of quality emergency medical care.

FY2026 Initiatives

- Continue expanding the role of the recently hired Deputy Chief
- Expanding Health and Wellness initiatives
- Initiate study committee to remove fire department from civil service (ongoing)
- Continue to fill vacancies from civil service list currently 7 vacancies. (retirements)
- Expand office space at Central Station, explore feasibility of additional clerical position for fire prevention (ongoing)
- Continue advocacy for replacement of obsolete and worn department vehicles.
- Continue Rescue Task Force training and exercises with regional police and fire departments.
- Continue to seek state and federal monies, as well as training resources, to enhance the operation of the fire department and the safety of the public.
- Streamline and refine training program for Paramedics and EMT's to ensure compliance with both national and state standards.
- Advocate for additional day position for EMS Officer

Prior Year Accomplishments

- Filled the Deputy Chief position, hiring Jeffrey Russo from within the department
- Completed the Public Safety Radio Upgrade.
- Continued Rescue Task Force training with Winchester Police as well as mutual aid communities.

- Updated the department's exercise equipment through grants and donations
- Hosted free cancer screenings, promoting health and wellness.
- Updated unserviceable extrication equipment with funding from firefighter safety equipment grant.
- Continued program to identify and designate structures as high firefighting risk and, in conjunction with building inspector.
- Continued with the successful Student Awareness of Fire Education (S.A.F.E.) and expanded the Senior SAFE program with additional home visits and smoke alarm installations.
- Initiated feasibility study to integrate with building department's Open Gov online permitting system.

Program Description

The purpose of this department is to certify and approve all of the Town's weighing and measuring systems as required under state law. The majority of the work is with scales and gas station meters checking for their accuracy. Oil trucks are also checked periodically and annually.

FY 2026 Initiatives

- Raise current inspection fees on all devices tested.
- Continue to upgrade and purchase new equipment as needed.
- Borrow State gas prover to help assist gas station inspections.
- Continue to get state assistance in price checking and scanner accuracy.

Prior Year Accomplishments

- Collected $2643 in fees.
- Resealed 191 weighing and measuring devises.
- Got all test measure equipment re-certified at State Metrology Lab.
- Attended a 2-day training seminar given by state on price checking and scanner accuracy.
- Celebrated my twenty-seventh year as the town's weights and measures official.

Program Description

The Public Works Department maintains and improves public health and safety for the citizens of Winchester through the maintenance, repair and improvement of the Town's infrastructure including municipal and school buildings, streets and sidewalks, parks, water and sewer systems, fleet maintenance and refuse disposal. The sub-programs that provide these services include Administration, Maintenance, Buildings, Garage, Transfer Station, Cemetery and Snow and Ice. The Water and Sewer is budgeted separately as a self-supporting enterprise.

DPW Administration

Program Description

This sub-program of the Public Works budget is responsible for developing and monitoring departmental operating and capital budgets as well as the Town's Energy budget. This sub-program provides support for all D.P.W. divisions including the preparation of payroll, accounts payable and receivable, and preparation of specifications and bid documents for contract administration for school and municipal buildings.

FY2026 Initiatives

- Update the Street Scan pavement management software to keep track of age and use to better prepare for future capital requests.
- Develop succession plan in anticipation of upcoming retirements.
- Continue to work with local volunteer groups and vendors to expand the Town's efforts to divert organics from the waste stream and make ongoing recycling efforts as user friendly as possible at the Transfer Station and Town buildings.
- Continue to review operational expenses for opportunities to achieve reduction in expenses.

Prior Year Accomplishments

- Worked with both electricity and natural gas suppliers to lock in three-year fixed-rate contracts well before contract expiration to keep energy price increases to a minimum.
- Refined work order program within DPW to improve efficiency in response to resident requests and completion of work orders.

DPW Maintenance

Program Description

This is the largest (non-Water & Sewer) component of the D.P.W. and annually maintains 98 miles of streets and all municipal and school grounds, including roadway maintenance, repair, surfacing and sidewalk repair. In addition, it includes (1) roadway cleaning, litter control, dead animal pick-up, and accident cleanup; (2) traffic control including line and crosswalk painting, street sign construction, repair and installations, and traffic signal repair; (3) arbor maintenance including street tree removal and trimming, insect control, storm cleanup, and Christmas tree light setup; (4) horticulture including tractor and hand mowing, pruning and planting, fertilizing, insect and litter control, and irrigation system maintenance; (5) play fields including rolling and leveling, fence and barrier maintenance, bleacher assembly and disassembly & repair; (6) ground maintenance of parks and around Town Hall and Library; and (7) major maintenance of school grounds.

FY 2026 Initiatives

- Continue street improvement program utilizing StreetScan software.
- Continue sidewalk repair program including ADA issues.
- Continue flood-related projects including clean-up of Aberjona River.
- Continue tree planting program.
- Continue to expand new street signs program.
- Continue the ongoing effort to improve maintenance of open space and recreational areas.
- Continue to review cost-saving measures in the Department.

Prior Year Accomplishments

- With Chapter 90 funds, Newport Paving Corporation resurfaced the following streets: Bates Rd., Arlington St., Indian Hill Rd., Birch Ln., Atherton Rd., Samoset Rd., Loring Ave., Lochwan St., Kirk St., Wendell St., Clark St., Dunster Ln., Sawmill Brook Rd., Charles Rd., Bradford Rd., Symmes Rd., Hancock St., Russell Rd., Thornberry Rd., Grayson Rd.
- Installation of seven (7) ADA ramps by Town employees.
- Installation of new granite curb, concrete sidewalks and traffic calming infrastructure on the Cross Street corridor.
- Installed new sidewalks and curbing on Johnson Rd.
- Repaired sidewalks on the following streets: Sheffield Rd., Elm St., walkway between Waterfield Rd. and Main St.
- Planted 12 new trees in Town as part of the Street Tree program.
- Added three (3) new vehicles for day-to-day operations.

DPW Buildings

Program Description
This division is responsible for the maintenance and repair of all school and municipal buildings along with custodial services at all schools, Town Hall and the DPW offices.

FY2026 Initiatives

- Continue to work with the Town Manager and DPW Director on their vision for the direction the department will focus on.
- Continuing work with the School Dept. and EFPBC on the success of the new Lynch School.
- McCall School had its major renovation 25 years ago. Building systems are at an age that industry standards consider to be at the end of useful life. Planning and action to address these will be a focus.
- Updating of the Town's Building condition database.

Prior Year Accomplishments
The Facilities group has been working through a couple of long-term employee medical absences that are coming to resolve through retirements. We have had a couple of unanticipated retirements from the staff as well – all long-term employees who have had a significant role in the upkeep of the buildings. We are striving to find as good or better replacements. With the anticipated opening of a new Lynch School this coming fall, we are closely watching progress and how the systems are being installed and learning as much about their operations as possible prior to completion.

- Parkhurst- performed a large environmental controls upgrade eliminating almost all the old pneumatic controls and overhaul of classroom unit-ventilators.
- Wildwood Cemetery – Rebuilt the customer entrance with new granite steps and made major repairs to the awning over that entrance.
- McCall School – Energy saving projects performed including transformer replacements with high efficiency units and areas of florescent lighting swapped out with LED fixtures.
- Mystic School Building- funding secured, project developed and now in process to replace the oldest and most problematic portion of the steam heating system with VRF heat pumps.
- Town-Wide – performed **e**nhanced five-year testing of building sprinkler systems.

Statistics
Maintenance of 1,105,953 square feet of public buildings.

DPW Garage

Program Description
The Garage maintains over 120 vehicles and/or equipment in the D.P.W fleet, police cruisers, and Town vehicles in other departments. In addition, the Garage is responsible for maintaining the mechanical equipment at the Transfer Station.

FY2026 Initiatives
- Continue to work with operators to achieve optimum maintenance on machines, i.e., greasing and cleaning vehicles for increased longevity.
- Continue to maintain Transfer Station conveyer belt.
- Continue to keep mechanics up to date with diagnostic tools and training. We have an upcoming training specifically for welding.

Prior Year Accomplishments
- Updated fleet of Public Works vehicles with a new ride-on lawnmower and a new woodchipper.
- Procured the Town's first all-electric pickup truck (Ford Lightning) for the Facilities department.
- Installed automatic lubricator on the transfer station conveyor belt which eliminates the need for staff to do it manually providing improved safety for staff as well as extending the life expectancy of the equipment.

DPW Transfer Station

Program Description

The primary purpose of this program is to provide the most economical and convenient way to dispose of trash and to recycle items to secondary markets. Recycling results in savings by reducing the amount of material requiring incineration. The Transfer Station, located off Swanton Street, receives refuse from commercial haulers, local businesses, residents and landscapers. There are three components to the operation: operating the refuse collection building and hauling refuse to Win Waste Innovations in North Andover as of recycling waste ban items as well as supervising the swap shop area, clothing and book collection areas; and managing the yard waste and composting areas producing marketable wood chips and screened or unscreened compost.

FY2026 Initiatives

- Purchase trommel screen with town and state funds.
- Continue to improve preventative maintenance best practices for both waste and recycling compactors.
- Continue spring opening of the swap shop to further divert tons from the waste stream.
- Explore opportunities for grant funded equipment.
- Investigate ways to increase revenue to keep costs down at the transfer station.

Prior Year Accomplishments

- Competitively bid recycling contract for FY26-FY28.
- Finalized the commercial recycle drop off.
- Installation of new scale house software.
- Continue to rent a trommel screen and produced high quality loam and bark/mulch for the residents.
- Construction of bulk material bins for loam, mulch and gravel
- We continue to recycle many tons of electronics, rechargeable batteries, metal, books, clothing, swap shop items, yard waste, branches, asphalt, concrete and stone.
- Negotiated the extension of the solid waste disposal contract.

DPW Cemetery

Program Description

Wildwood Cemetery is a municipal cemetery owned by the Town located off Palmer Street. The cemetery is managed and operated by the Department of Public Works. A five-member Cemetery Advisory Committee advises the Board of Selectmen on policy matters relating to the operation and development of the facility. Wildwood Cemetery was conceived and artistically designed as a "rural garden cemetery" for the benefit of Winchester Citizens.

FY 2026 Initiatives

- Get approval from Capital improvements of second niche wall. Use bid documents and plans generated by Grever and Ward.
- Purchase a new backhoe to assist in grave digging and daily operations.
- Continue to make building improvements.
- Continue to do more tree pruning and removals from current capital funds.
- Review and revise current Rules and Regulations.
- Assemble and install 93 new Victorian style signposts on grounds.

Prior Year Accomplishments

- Grever and Ward hired to design and produce bid documents to build a second niche wall off Emerson Ave.
- Hired Northeast Tree to remove 16 trees throughout the grounds that had died and were unsafe.
- Built new stairs to the office and repaired rear gutter and sofit. Repaired front entrance roof and back deck handrails.
- Started signage project from Capital funds which included refinishing 38 signs and painting signposts. Ordered new pathway signs.
- Purchased a new Ford 550 1-ton dump truck.
- Dug and poured 74 Foundation Orders
- Completed 55 job requests.
- Purchased new casket lowering device.

DPW Snow & Ice

Program Description

The function of this program is to maintain roads, streets and sidewalks during snow and ice season and to provide a safe traveling environment for residents and visitors of Winchester. The Snow and Ice budget covers the overtime cost as well as the cost of supplies and materials and equipment repair and rental associated with the removal of snow and ice from the Town's streets and sidewalks.

FY2026 Initiatives

- Continue to maintain improved response time during icing conditions.
- Continue evaluation of routes and resources to appropriately service all routes.
- Continue to maintain safe roadways for general public and safety vehicles.
- Implement seven-year program to replace 35-year-old plow blades with new power angle plows for improved plowing operations.

Prior Year Accomplishments

Maintained roads, sidewalks and school grounds during winter that produced 16 inches of snow.
The DPW performed four full-scale operations and four sand/salt operations for a total of eight events.

SECTION VIII

Service Programs – Education (3100)

WINCHESTER PUBLIC SCHOOLS

INCLUSION • SERVICE • INNOVATION

Dr. Frank Hackett, Superintendent of Schools

TO: Beth Rudolph, P.E., Town Manager

RE: FY26 School Committee Preliminary Level Services Budget & Next Steps

February 13, 2025

On behalf of the Winchester School Committee, I am submitting their approved FY26 Preliminary Level Services Budget of $70,004,562.99, which represents an increase of $3,860,268.39, or 5.84%, over the Town Meeting's approved FY25 budget. This budget, which received unanimous approval from the School Committee on January 30, 2025, aims to maintain the same standard of service provided in the current FY25 fiscal year, with adjustments for known and projected changes as of January 23, 2025, including:

- **Enrollment:** FY26 projections are based on rolling forward enrolled students from their current FY25 grade to their FY26 grade. WPS has experienced a net growth of approximately 60 students since FY25, but we project that we will be able to absorb that increase with existing general classroom teacher levels. We await the results of the enrollment study from the UMass Donahue Institute and will make adjustments accordingly.
- **Collective Bargaining:** All five (5) of our bargaining unit contracts expire at the end of this school year. The Preliminary Level Services budget includes known step and projected lane changes (column moves based on earned credits) and a preliminary percentage increase that will not be known until contracts are ratified.
- **Special Service Needs:** The budget includes provisions for meeting our current students' special education and related service needs, with adjustments made for known and anticipated changes based on their Individualized Education Program (IEP).
- **Out-of-District Tuitions:** The budget allocates funds for out-of-district placements and associated tuition costs for students whose needs cannot be met within the district. It also includes funding for tuition and other expenses related to students in out-of-district programs.
- **Contractual Obligations:** The budget covers the costs associated with existing contracts for essential services such as general and special education transportation and food services, ensuring that these services continue uninterrupted. Transportation costs have been adjusted to accommodate the opening of the new Lynch Elementary School.

Background: Multiple Years of Level Service

Over the last three years, Winchester School Department budgets have been held to level services funding requests, except for a $300,000 increase for literacy in FY25. Due to declining enrollment, elementary general classroom teacher positions have been reduced by 10 since FY21. Additionally, funding for out-of-district placements in the general fund was increased to accommodate higher enrollments, state-approved tuition rate hikes averaging approximately 7%, and the expiration of ESSER funding in September 2024.

The only staffing increases implemented during this time have been to maintain level services for special needs students, those on 504 plans, and Multilingual Learners, all of which are legal and ethical obligations. Additionally, the Winchester High School Mandarin position was expanded from .4 to 1.0 to accommodate middle school students who continue Mandarin in high school. While redistributed among schools and departments yearly to meet the needs of students, the total district-wide allocated funding for classroom and school supplies, materials, professional development, and other critical investments has remained level-funded since the 2021-2022 school year.

Despite level services funding for the last several budget cycles, WPS invested significantly in teacher and classroom support contracts as part of the negotiated Collective Bargaining Agreements that expire this school year. This investment was in direct response to ensuring that we are competitive with other schools in the area with whom we compete when filling open positions and maintaining high retention rates with our existing educators. While it is always a priority for the WPS to pay our educators a fair and competitive salary, the need for the adjustment became a critical priority as we emerged from the pandemic and faced the same critical staffing shortages felt by school systems throughout the Commonwealth.

FY26 Preliminary Level Services Budget Assumptions

As discussed above, the FY26 budget ensures that all current programs and services are maintained at their existing levels, reflecting our commitment to consistently supporting students and staff. The budget, as presented, includes the following assumptions:

- Personnel
    - 7 retiree teaching positions budgeted for new hires;
    - Redistribution of anticipated teacher column moves, carried at school/department level;
    - All collective bargaining units (A, B, C, D, E) are to be negotiated;
    - Shift in centralizing digital learning FTEs to the schools where they provide direct support.
- Other Expenses
    - Redistribution of the general education transportation budget from the Central Office line to a new Transportation line;
    - Increase in special education transportation contract;
    - Conducted a comprehensive review of all other expenditures to ensure that all budget school and department requests were supported and aligned with the WPS 2030 strategic goals;
    - Budgeted funds to cover Title I services affected by limited and flat federal funding;
    - Increase athletics fee by $50 per sport;
    - Out-of-district tuitions have been adjusted to reflect the 3.6% increase set by the Massachusetts Operational Services Division (OSD).

A Multi-Year Budget Roadmap: Supporting our WPS 2030 5-Year Strategic Plan:

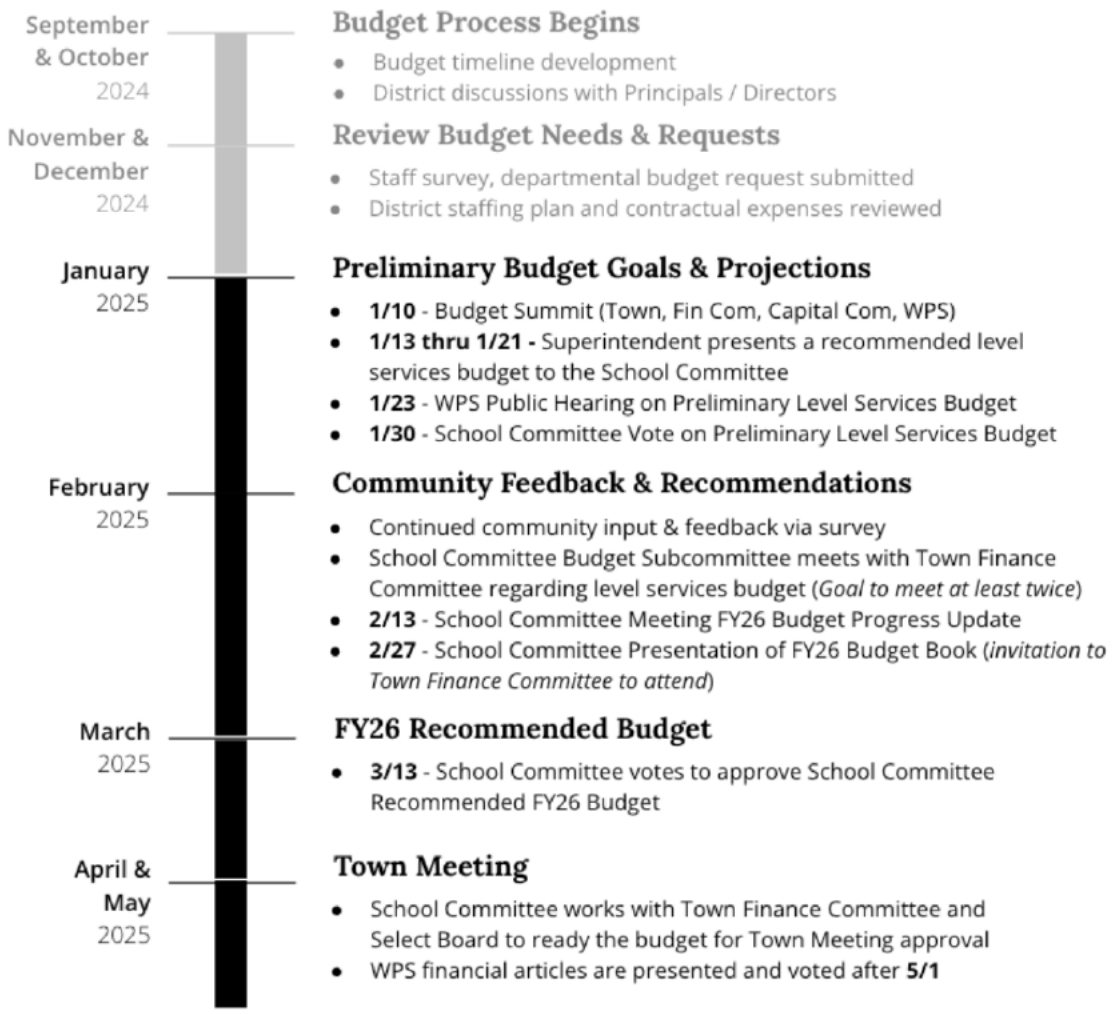
While the FY26 Preliminary Level Services Budget sustains current operations, it does not support the current or emerging needs of our students and staff or the goals and priorities envisioned in our WPS 2030 Strategic Plan. The revised timeline discussed below is critical to developing a shared school community understanding of our budget needs for FY26 and beyond (FY27-FY28).

Implementing a Revised Budget Timeline

This year, the School Committee endorsed a budget development timeline that allows time for a more collaborative and public process, engaging the School Committee, the Select Board, the Town Finance

Committee, municipal and school staff, and the school community (*figure 1*). The process has included multiple meetings with the School Budget Subcommittee, which started in October of 2024, and covered items such as a review of district fees, enrollment, and state and federal funding. Expanding the development timeline allows for broader school community engagement and input, promotes transparency, and fosters clear communication with town boards and the greater community.

Figure 1

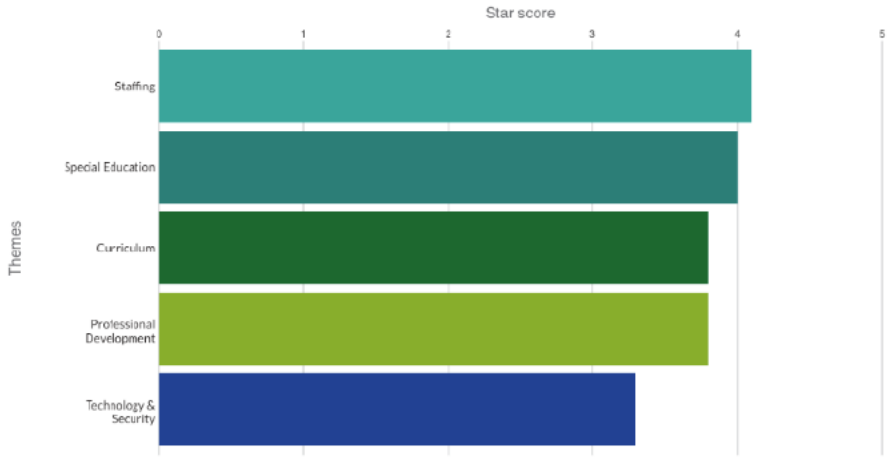


Engaging with WPS Staff & the School Community

In November of 2024, the District surveyed all staff through "ThoughtExchange," a crowdsourcing survey platform enabling us to gather, analyze, and prioritize participant feedback through a dynamic, AI-driven tool.

The participation of WPS staff and parents has been extraordinary. While the parent survey is still active, 293 faculty and staff engaged in their survey, providing 227 thoughts and almost 8,000 rankings, providing critical feedback in several areas *(figure 2)*:

Figure 2



Staffing & Special Education

- Staffing was the most frequently mentioned category, with participants emphasizing the need for more teachers, support staff, and interventionists.
- Many responses highlighted the impact of staffing shortages on class sizes, student support, and overall educational quality.
- There was a strong call to hire additional special education staff, social workers, and multilingual learner (ML) teachers to meet students' diverse needs.
- Participants also noted the importance of having full-time positions and reducing the reliance on part-time or split roles.
- Participants also highlighted the importance of having a continuum of services and programs aligned across different schools and grade levels.

Curriculum & Professional Development

- Participants prioritized evidence-based, consistent, and vertically aligned curricula across various subjects.
    - Elementary emphasis - literacy and math
    - Importance of having adequate materials and resources to support the curriculum
- Support for targeted and relevant training Professional Development (PD) for teachers and staff to include: o
    - Outside experts
    - Support for new curriculum implementation
    - Funding for individual PD opportunities

Technology & Security

- Participants emphasized the need for adequate technological resources and support.
- Having the necessary materials and equipment for hands-on learning and projects is essential.
- Professional development to help teachers effectively integrate technology into their classrooms.
- Participants highlighted the importance of maintaining a safe and secure school environment.

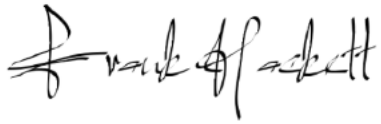
Next Steps
The School Committee will vote on its Final FY26 Recommended Budget on Thursday, March 13th. The ThoughtExchange Community survey closes on February 14th, and district leadership will combine that information with the previously completed WPS Staff survey to inform the development of priority recommendations for FY26 and future years in alignment with our WPS 2030 strategic plan.

The School Committee's Budget Subcommittee will continue to review administrative recommendations over the coming weeks on the following dates (all meetings held via Zoom):

- Wednesday, February 26th at 3:30 PM
- Wednesday, March 5th at 3:30 PM
- Wednesday, March 12th at 3:30 PM

We are committed to outlining our FY26 needs beyond the School Committee-approved Preliminary Level Services budget in developing a vision and roadmap for the District's future. On behalf of the School Committee, we look forward to working with you, the Finance Committee, and the Select Board in the coming months.

Respectfully submitted,



Frank Hackett, Ed.D.
Superintendent of Schools

FY26 Preliminary Level Services Budget

January 22, 2025

WINCHESTER PUBLIC SCHOOLS
INCLUSION • SERVICE • INNOVATION

AGENDA

I. **Call to Order (6:30 PM)**

II. **Public Hearing on FY26 Preliminary Level Services Budget**

III. **Adjournment (around 7:30 PM)**

WINCHESTER PUBLIC SCHOOLS
INCLUSION • SERVICE • INNOVATION

Budget Timeline

REVISED

FY26 Budget Development Timeline

Tentative
WPS Budget Subcommittee Meetings
(via Zoom)

- Wednesday, February 5th at 11:30 AM
- Wednesday, February 12th at 11:30 AM
- Wednesday, February 26th at 11:30 AM
- Wednesday, March 5th at 11:30 AM
- Wednesday, March 12th at 11:30 AM

September & October 2024

Budget Process Begins

- Budget timeline development
- District discussions with Principals / Directors

November & December 2024

Review Budget Needs & Requests

- Staff survey, departmental budget request submitted
- District staffing plan and contractual expenses reviewed

January 2025

Preliminary Budget Goals & Projections

- **1/10** - Budget Summit (Town, Fin Com, Capital Com, WPS)
- **1/13 thru 1/21 -** Superintendent presents a recommended level services budget to the School Committee
- **1/23** - WPS Public Hearing on Preliminary Level Services Budget
- **1/30** - School Committee Vote on Preliminary Level Services Budget

February 2025

Community Feedback & Recommendations

- Continued community input & feedback via survey
- School Committee Budget Subcommittee meets with Town Finance Committee regarding level services budget (*Goal to meet at least twice*)
- **2/13** - School Committee Meeting FY26 Budget Progress Update
- **2/27** - School Committee Presentation of FY26 Budget Book (*invitation to Town Finance Committee to attend*)

March 2025

FY26 Recommended Budget

- **3/13** - School Committee votes to approve School Committee Recommended FY26 Budget

April & May 2025

Town Meeting

- School Committee works with Town Finance Committee and Select Board to ready the budget for Town Meeting approval
- WPS financial articles are presented and voted after **5/1**

FY26 Budget Development

Preliminary Level Services Budget

WINCHESTER PUBLIC SCHOOLS
INCLUSION • SERVICE • INNOVATION

What is a Level Service Budget?

A Level Services budget is defined as taking the current year's level of services and projecting that same level of services forward one year.

There are many factors that are considered when projecting forward one year including enrollment changes, rate changes for expenses such as utilities or insurances, staff turnover, retirements and contracted salary increases.

What is a Recommended Budget?

Our recommended budget will build on the Level Services Budget to include those resources (people, materials, etc) needed to support our teachers and students. This budget will include updated numbers to reflect changes that may occur over the next several weeks, including enrollment projections, special service needs, and other items that may not be included in the Level Services Budget.

Most importantly, it will include priorities identified through engagement with our teachers, staff, parents, and broader community. The Recommended Budget will be designed to align with the considerations from our Committee and Leadership to meet our Strategic Goals, as determined by both staff and the community.

FY26 Preliminary Level Services Budget

$3,860,268.39
or 5.84%

Items of note:

Org 111; includes distribution of column moves to schools and transportation budget to 125

New org (125) to track Gen Ed Transportation Cost

Org 121 (IT) reclassed Digital Learning (ITS) to assigned schools

FY25 Town Meeting Approved Budget vs FY26 Preliminary Level Services Budget

DESCRIPTION	TOTAL	
FY25 Town Meeting Approved Budget 5/9/24	**66,144,294.60**	**4.67%**
FY26 Projected Increase in Personnel Services	3,572,491.81	
FY26 Projected Increase in Other Expenses	287,776.59	
FY26 Preliminary Level Services Budget	**70,004,563.00**	**5.84%**

WINCHESTER PUBLIC SCHOOLS
INCLUSION • SERVICE • INNOVATION

FY26 Assumptions as of January 22, 2025

Retirements

- 7 Retirees positions budgeted for new hires

Special Education

- OSD 3.67% Increase
- Based on current based estimate of out-of-district placements; continued monitoring in FY25

Budget Lines

- All budget lines have been adjusted based on historical, enrollment and program driven needs
- Flat growth in Title 1 funding (FY26 funding warning)

Bargaining Units

- All Units (A,B,C,D,E) are to be negotiated
- Anticipated column moves have been budgeted

WINCHESTER PUBLIC SCHOOLS
INCLUSION • SERVICE • INNOVATION

FY25 Projection

Unanticipated/Unbudgeted Special Education Post Town Meeting Vote

- Special Education Transportation - 35% Vendor Contractual Increase
- Specialized Support/Placement for newly enrolled students

Recommendation: Request approval to utilize **$364,746** from Special Education Reserve Fund for the FY25 (current year) budget.

Planning for Staff, Student, & Community Engagement in Budget Process

Community Feedback & Recommendations

ThoughtExchange

- Community Stakeholders
- Staff Survey Follow-Up

FY26 - FY28+

September & October 2024

Budget Process Begins

- Budget timeline development
- District discussions with Principals / Directors

November & December 2024

Review Budget Needs & Requests

- Staff survey, departmental budget request submitted
- District staffing plan and contractual expenses reviewed

January 2025

Preliminary Budget Goals & Projections

- **1/10** - Budget Summit (Town, Fin Com, Capital Com, WPS)
- **1/13 thru 1/21 -** Superintendent presents a recommended level services budget to the School Committee
- **1/23** - WPS Public Hearing on Preliminary Level Services Budget
- **1/30** - School Committee Vote on Preliminary Level Services Budget

February 2025

Community Feedback & Recommendations

- Continued community input & feedback via survey
- School Committee Budget Subcommittee meets with Town Finance Committee regarding level services budget (*Goal to meet at least twice*)
- **2/13** - School Committee Meeting FY26 Budget Progress Update
- **2/27** - School Committee Presentation of FY26 Budget Book (*invitation to Town Finance Committee to attend*)

March 2025

FY26 Recommended Budget

- **3/13** - School Committee votes to approve School Committee Recommended FY26 Budget

April & May 2025

Town Meeting

- School Committee works with Town Finance Committee and Select Board to ready the budget for Town Meeting approval
- WPS financial articles are presented and voted after **5/1**

FY26 Budget Survey: Faculty & Staff

"What programs or resources should be prioritized for a successful school year?"

BUDGET SURVEY (GLOBAL THEMES)
Top Themes by star score

Which school level do you primarily support?

Budget Survey (Global Themes)	Elementary	Middle School	High School	District-Wide
Staffing	4.1	4.2	3.9	3.6
Curriculum	3.9	3.8	3.6	3.5
Special Education	4.2	4.1	3.6	3.5
Professional Development	4.0	3.7	3.6	3.5
Technology & Security	3.4	3.5	3.0	3.5

3.0 — 4.2

293 Participants

227 Thoughts

7,942 Ratings

14

Key Themes: Staffing & Support - General and Special Education

- Staffing was the most frequently mentioned category, with participants emphasizing the need for more teachers, support staff, and interventionists.
- Many responses highlighted the impact of staffing shortages on class sizes, student support, and overall educational quality.
- There was a strong call for hiring additional special education staff, social workers, and multilingual learner (ML) teachers to meet the diverse needs of students.
- Participants also noted the importance of having full-time positions and reducing the reliance on part-time or split roles.
- Participants also highlighted the importance of having a continuum of services and programs that are aligned across different schools and grade levels.

Key Themes: Curriculum & Professional Development

- Participants identified evidence-based, consistent, and vertically aligned curricula across various subjects as a priority.
    - Elementary emphasis - literacy and math
    - Importance of having adequate materials and resources to support the curriculum
- Support for targeted and relevant training Professional development (PD) for teachers and staff to include:
    - Outside experts
    - Support for new curriculum implementation
    - Funding for individual PD opportunities

16

Key Themes: Technology & Security

- Participants emphasized the need for adequate technological resources and support.
- Importance of having the necessary materials and equipment for hands-on learning and projects.
- Professional development to help teachers effectively integrate technology into their classrooms.
- Participants highlighted the importance of maintaining a safe and secure school environment.

Environmental Remediation (9460)

ENERGY

The Energy budget is a consolidated account that funds all energy cost for municipal and school departments. It includes the cost of heating oil, natural gas, and electricity, as well as gasoline and diesel fuel for Town vehicles.

The Energy Management Committee (EMC), formed in 2006, has worked with town boards and departments to implement energy saving measures. EMC initiatives have resulted in over $7 million in avoided costs cumulative since the Committee's inception. The Town has also created an Energy Revolving Fund to provide financial support for energy conservation projects along with utility incentives and grant funding. Additionally, Winchester is a member of the Green Community program, and our goal is to save an additional 20% in energy usage. In the past, solar arrays have been installed on the roofs of the Vinson-Owen School, DPW, and Winchester High School to reduce our energy expenses at these locations.

During FY25, the following energy projects will be on-going or completed:

- Mystic School heat repairs and replacements to transition a portion of the building from steam heat to VRF heat pumps, which was funded through a combination of ARPA funds and Free Cash; and
- Mystic School window replacement, which was funded in part through a grant from the Massachusetts Department of Energy Resources (DOER).

The new Lynch Elementary School is scheduled to open in September 2025. The building will be all electric and equipped with roof and ground-mounted solar panels to achieve Net Zero status. Since operating costs for the new building are currently unknown, staff has assumed $80,000 in energy costs for the Lynch School. The budget also assumes a return to prior usage amounts at the Parkhurst School, which had been temporarily used for swing space for displaced Lynch students.

PERSONNEL BENEFITS

The Personnel Benefits budget includes the cost of benefits associated with municipal and School Department employees. This category includes pensions (Contributory and Noncontributory), Workers Compensation, unemployment Compensation, Federal Insurance Contributions Act (FICA) and Medicare tax, and health insurance. Additional information regarding each category is provided below.

Contributory Retirement

The Winchester Contributory Retirement Board (the Board) was established in accordance with Massachusetts General Law Chapter 32 Retirement Systems and Pensions. The Board is made up of the Comptroller (ex-officio), an appointee of the Select Board, two representatives elected by the employees and retirees in the Winchester Contributory Retirement System (WCRS), and a member who is not an employee, a retiree or Town official, chosen by the other four Board members. The Board administers the statewide retirement program for all municipal employees and certain education employees. There are currently 291 retirees (including beneficiaries and survivors) in the WCRS.

The annual required payment into the WCRS is determined by the funding schedule prepared as part of an actuarial valuation performed by the Commonwealth of Massachusetts' Public Employee Retirement Administration Commission. The most recent actuarial valuation as of January 1, 2023, assumes an unfunded liability of $14,453,261 and an appropriation increase of 5.0% until fiscal year 2026, with a final amortization payment of the unfunded liability in fiscal year 2027.

Worker's Compensation/Police & Fire Injured on Duty (IOD)

The Town self-insures its Worker's Compensation and Police/Fire IOD liability. The Worker's Compensation/IOD budget supports pay-as-you-go claim payments made in accordance with Massachusetts General Law (MGL) Chapter 152 as well as MGL Chapter 111f (medical costs only) which include the following:

- Administration costs for third party claims administration;
- Legal costs associated with claims requiring legal advice and representation;
- Salaries for job related time loss (except for Police & Fire whose full salaries are paid out of their respective departmental budget); and
- Medical and other costs related injuries sustained on the job.

Unemployment Compensation

In 1976, unemployment compensation was extended by the Federal Government to State and local government workers. On January 1, 1978, government units in Massachusetts became liable for the

costs of these benefits. Unlike private employers, public employers can choose between two methods of payment (participation) of unemployment compensation costs: either through a "tax" of 1% of gross payroll (which could increase in future years) or reimbursement of actual costs. Winchester has chosen to follow the reimbursement method. As a result, the Town is billed each month by the Department of Unemployment Assistance for any claims attributable to the Town.

Health Insurance

Effective July 1, 2022, the Town changed health insurance providers from Harvard Pilgrim Healthcare (HPHC) to Blue Cross/Blue Shield (BCBS) offered through the Massachusetts Interlocal Insurance Agency (MIIA). This change was finalized after the FY23 budget was approved at Spring 2022 Town Meeting, so the FY23 budget carried the higher premium costs assuming a renewal with HPHC. The change in health insurance programs resulted in the turnback of $1,212,230.42 in the FY23 health insurance budget, which closed to Free Cash on June 30, 2023.

For FY25, the Town implemented several measures to reduce our active employee renewal rate from 8.25% to 5.25%. These included implementation of a Medicare Buy-in program for approximately 25 existing retirees over age 65 who were on the Town's HMP and PPO plans and a switch of dental providers to MIIA/BCBS.

Discussions for the FY26 health insurance budget began in October 2024. At that time the Town was notified of significant increases to the retiree Medicare supplemental plans, which renew on January 1st, and to expect a 10% rate increase on our active employee renewals effective July 1, 2025. Based on this guidance, senior management used the 10% renewal number for the purposes of preliminary budget discussions. On February 3rd, the Town learned that our actual proposed FY26 renewal rate was significantly higher at 18.92%, resulting in an overall health insurance budget increase of 20.1% over FY25. Staff are working with our health insurance consultant to evaluate ways to reduce this impact; however, no changes will be in place by the deadline for submission of the Town Manager's budget on February 15th. Staff will work with the Finance Committee over the coming months to convey any budget adjustments ahead of Spring Town Meeting.

MISCELLANEOUS

Reserve Fund

The Reserve Fund is, in effect, a contingency fund under the jurisdiction of the Finance Committee to provide for extraordinary and unforeseen expenses of various Town departments during the fiscal year. Direct expenditures from this Fund are not made; rather, transfers are made to budgetary accounts. State law permits an appropriation of not more than 5% of the tax levy. For FY26, $400,000 is proposed to be allocated to the Reserve Fund, which is unchanged from the prior year.

General Insurance

Appropriations under this budget are for property, general liability, auto, public officials, law enforcement, school board, non-statutory employee bonding, flood insurance and numerous other types of policies. The Town contracts with a non-profit pool of municipalities managed by the Massachusetts Interlocal Insurance Association (MIIA) for most of its insurance plans.

CAPITAL FUND TRANSFERS

Capital and Building Stabilization Funds

Funds Pursuant to the Acts of 2002 Chapter 69 the Town established the Building and Capital Stabilization Funds. The Town approved the funding of these stabilization funds with a Proposition 2 ½ override (referendum vote). The original appropriation to establish the Building Stabilization Fund started at $1,850,000 and the original appropriation to establish the Capital Stabilization Fund started at $800,000. These were both increased in FY20 with an override of $400,000 and $1,600,000, respectively. The voters approved an additional $400,000 increase to the Capital Stabilization Fund in January 2023. This increase became become effective July 1, 2023. Annual appropriations are increased by 2 ½ - percent annually.

Muraco School Boiler Replacement

New boilers were installed at the Muraco Elementary School in 2010; however, due to ongoing maintenance, warranty, and reliability issues the boilers were replaced in fall 2021 as part of an override that funded a series of immediate repairs to the school. The Town is still paying the debt service for the original high-efficiency boilers. Management supports the continued allocation of $30,000 per year to be applied to pay down that debt service via a transfer out of the Building Stabilization Fund (the fund that pays the debt service annually). The debt on the 2010 replacement will be fully paid in FY26

NON-APPROPRIATED CHARGES

MBTA

The MBTA provides rapid transit and other mass transit services to 175 cities and towns including Winchester. Prior to the 1999 enactment of the reform package that overhauled the budgeting and assessment procedures for the MBTA (commonly referred to as "forward funding"), only 78 communities were assessed, totaling $145 million and increasing 2½% annually. For purposes of determining each community's assessment, the expenses are broken down into two categories: Local and express service. Express service, which basically involves rapid transit service, is assessed 75% by the commuter count (the number of people who live in the town but work elsewhere), and 25% by the number of people boarding in the community. The boarding count is taken for a one-week period each spring. The local service is assessed 50% by the total deficit divided by the route miles in a community. The MBTA is required by law to notify the State Treasurer of the amount of the Net Assessable Cost of Service to be assessed to the municipalities within the district.

Registry of Motor Vehicles Non-Renewal Surcharge

If after proper notices, a motorist fails to pay a parking fine, motor vehicle excise tax, or a charge for abandonment of a motor vehicle, the Town notifies the Registrar of Motor Vehicles (RMV) not to renew the license and registration of that motorist. To cover the RMV's administrative costs of entering the necessary information into its computer system, the RMV assesses the Town a fee of $20 for each notification it receives. This fee, which comes through as a charge on the Cherry Sheet, is recovered by the Town by adding this amount and other penalties to the original fine print.

Metropolitan Area Planning Council

The Metropolitan Area Planning Council (MAPC) is a regional planning agency representing 101 cities and towns in the metropolitan Boston area. Created by an act of the Legislature in 1963, it serves as an independent public body of the Commonwealth with which state and local officials can address issues of regional importance.

Air Pollution Control District

General Laws Chapter 11, Section 142B, requires that communities be assessed for a portion of the costs incurred by the State Department of Environmental Protection (DEP) to monitor air pollution levels and enforce air quality standards at industrial, commercial, and institutional facilities. Expenditures made for such purposes are assessed against the metropolitan communities, one-half in proportion to the equalized valuations and one-half by the population of each community.

Cherry Sheet Offsets

Included in the estimated amount of aid to be received from the State are grant funds for the library. These funds are reserved for direct expenditure by the departments and are not considered to be general available revenues. Consequently, as part of the tax rate preparation process, whatever amount is included within the State aid estimates is also included in the non-appropriated expense section as offsetting debits. The Town receives one grant annually for the public library.

Tax Levy Overlay

State law requires that the Assessors put aside funds from each tax levy in a reserve that is called Overlay (also known as Allowance for Abatements). This account is established in anticipation that a certain percentage of the tax levy may end up being abated. Individual Undistributed IX-9 tax

abatements are paid out of this fund. The amount of the overlay account, the final value of which is determined by the Assessors, is added to the tax rate without appropriation.

SECTION X

Funded Debt (7100 & 7120)

FUNDED DEBT

The funded debt budget includes principal and interest payments on long-term permanent borrowings, and interest payments on short-term Bond Anticipation Notes (BANs) issued by the Town. This includes debt excluded from Proposition 2 ½ and debt funded by the Building Stabilization Fund, the Capital Stabilization Fund, and the General Fund. Debt paid out of the Water and Sewer Enterprise Fund is discussed in a subsequent section of this report.

For FY26, the budget includes principal and interest payment estimates for the following short and long-term debt, which will be sold in March 2025.

Program Description

The Water and Sewer Department, established as a formal enterprise entity in FY2003, operates as a division within the Public Works Department. This division is dedicated to maintaining and enhancing the Town's water storage, treatment, and distribution systems, as well as managing eight sewer pumping stations, the sewer collection network, and the municipal drainage infrastructure.

FY2026 Initiatives

- Collaborate with Weston & Sampson to complete the permanent Wendell Street Pumping Station.
- Continue to work with Weston & Sampson on the South Reservoir Dam Rehabilitation Project, which is currently under construction.
- Coordinate with Weston & Sampson on the design and planning for the Woodside Road Sewer Lift Station Replacement Project.
- Engage with consultants on a pilot program to identify the most suitable water meter solution for the town and its residents.
- Maintain and enhance the sewer and drain cleaning and maintenance program.
- Continue collaboration with Weston & Sampson on the Town's Infiltration and Inflow Project, supported through the MWRA Loan Program.
- Assess the required scope of water main lining on Cambridge Street and initiate the lining process.

Prior Year Accomplishments

- Began installation of a permanent pump station on Wendell Street.
- Continued monitoring the effective performance of the aeration system at the South Reservoir Screen House for manganese control.
- Installed over 1,750 feet of new water main throughout various projects.
- Replaced 17 water services and completed 9 service repairs.
- Addressed and repaired 5 water main leaks.
- Installed 11 new fire hydrants and performed repairs on 5 existing hydrants.
- Installed 33 new shut-off gate valves across multiple projects.
- Conducted 2 repairs on sewer infrastructure.
- Identified and repaired 37 manhole and catch basin structures.
- Performed 152 gas-mark outs and 141 contractor mark-outs.

Program Description

The Winchester Recreation Department designs unique year-round and seasonal recreational programs offered to all Winchester residents. Led by qualified instructors, our programs offer participants affordable opportunities for a wide variety of passive and active recreation, wellness, and leisure activities and oversight and coordination of the use and permitting of all the towns fields, courts, and recreational areas.

The Recreation Department operates as an Enterprise Fund. Programs are self-supported by setting user fees to cover all departmental expenses including indirect costs to other town departments that support the department. The recreation department's operating budget funds all recreation expenses: staff, supplies and materials, professional services needed to run the department such as cleaning of buildings, maintenance to facilities and recreational areas, snow removal, burglar alarms and pest control. Surplus revenues generated through the enterprise fund are logged into a retained earnings account that can fund capital improvement projects, COLA increases, new recreation initiatives budget shortfalls or budget growth. Retained earnings expenditure can only be approved by an affirmative vote at Annual Town Meetings.

An additional responsibility of the department is the management and scheduling of athletic fields, court and open space rentals and reservations through two separate revolving accounts, the Synthetic Field Account and the Grass Field Account. These accounts are governed by town by laws and expenditure from the accounts must specifically be listed in the bylaws. Expenditures are voted on and approved by the Field Management Committee and must be signed off on by the Town Managers office for final approval. The goal of these accounts is to reinvest funds back into fields, parks and sport courts for general maintenance, improvements, and upkeep.

FY2026 Initiatives

- Grow Packer Ellis Tennis Program by adding programs, events and tournaments through recruiting and utilizing Recreation Staff.
- Continue collaboration with other town departments, boards, and citizen groups on new initiatives that will improve recreational opportunities, facilities, and grounds.
- Continue addressing facility needs at recreation department-controlled facilities - improving the building and grounds utilizing grants, fundraising, collaboration with private groups and individuals and working within the Capital Expenditures Committee.
- Working and collaborating with the School Department, address the need for additional Middle School program options by developing new program opportunities such as the MS basketball program, MS track, and MS cross country programs.
- Seek to expand adult offerings through local partnerships with in-town businesses and building collaborations with organizations such as Rotary and The Chamber of Commerce.

- Move forward with the Sand Volleyball citizens Group to construct and install sand volleyball courts at the Borggaard Beach area and enact a rejuvenation plan for the recreational area by reimagining the space.
- Continue collaborating with the school department to grow after school enrichment opportunities, focusing on the newly built Lynch School.
- Seeking out additional summer programming options for MS youth and pre-teen participants.
- Add adult sport leagues mirroring the success of the adult softball league.

Prior Year Accomplishments

Entering FY24 the Recreation Department ended FY24 by growing the retained earnings fund to $994,830 from $883,644 after deducting indirect costs, recreation expenses and all departmental overhead. The Department created new summer programming, and returned former programs such as sports adventures, Summer WRAP and the learn to ski program.

The department continued to secure grant money to help offset costs and bring in new equipment, supplies and building improvements as well as sponsorships at Packer Ellis Tennis Facility and for Concerts on the common to help defray the cost of operating both.

- EEC C3 grant- Applied and secured a 12-month grant that will total $126,092 for FY 25.

Field Management Committee:

- Partially funded the new tennis court project at Leonard
- Partially funded Ginn lights project that received additional funding from Capital at Fall Town Meeting.
- Continued to increase use of fields and grow both revolving accounts that has allowed the committee to recommend larger field improvement projects.

Capital Projects Funded

- Worked with Capital Committee/DPW and Field Management Committee and several recreational projects funded for FY 25 capital cycle.
    - Ginn Field Light replacement
    - Design and Engineering: Packer Ellis Tennis Court improvements

Funded Facility Projects at Mystic

- Working with the Energy Management Committee secured a 75,000 grant coup0led with $35,000 in Recreation Grant money to fund window replacement of 2 classrooms at Mystic School.
- Working collaboratively with DPW, Town Managers Office, School Department and Select Board, secured ARPA money and free cash at FTM for the Mystic Boiler repair and heating project to extend the life of the heating system in the building.

Utilizing the Recreation Department Neighbors Helping Neighbors fund and through ENKA grant-provided scholarships to children totaling over $10,000.

FY26 RECREATION ENTERPRISE FUND BUDGET - SUMMARY

Estimated Revenue & Other Sources:	
Recreation Receipts

SECTION XII

Capital Planning Committee Report

October 21, 2024

To: Town Meeting

RE: Capital Planning Report

From: Roger McPeek, Chair, Members of the Capital Planning Committee cc: Select Board
Beth Rudolph, Town Manager Finance Committee
Heather Von Mering, Town Moderator

The Good News…

From Outside the Town
Repairs to the South Reservoir dam have begun and it is with great delight that the Capital Planning Committee (CPC) can report that town has received a $1 million grant from the Executive Office of Energy and Environmental Affairs' (EEA) Dam and Seawall program.

Also, with the assistance of Representative Day and Senator Lewis, the Town has received a $100,000 grant from the State toward the purchase a Trommel screener for the transfer station. CPC is proposing to match that grant for the purchase of that equipment. The town currently rents that equipment each year for about $20,000 so payback will be swift.

From Inside the Town
Last year the Capital Planning Committee (CPC) recommended the funding of engineering for required roof, window, and HVAC repairs to Schools and Municipal buildings that would lead to construction projects estimated to cost nearly
$10 million. This year, the combination of having a large project completing its 20-year debt payoff (allowing a responsible amount of borrowing), larger than normal balances in the Funds (robust investment and interest income, and substantial project closeouts), and a large certified Free Cash Balance, has allowed the CPC, working closely with the Select Board, to recommend nearly $10 million in building projects and $3.2 million in capital projects this year. The building projects will be funded with $3.8 million from the Building Stabilization Fund (BSF), $4 million in new bonding, and $2 million in Free Cash. The capital projects will be funded with $3 million from the Capital Stabilization Fund (CSF) and $200,000 in Free Cash.

This level of funding will enable the Town to undertake the urgently needed replacement of sections of the McCall Middle School roof and initiate repairs to the nearly 20-year old Ambrose School roof. CPC, with the EFPBC, will recommend repairs and treatment to the High School concrete slab floor to prevent further deterioration and to affect repairs of the slab in limited areas.

With the support of the Select Board, CPC is proposing the replacement of the Library slate roof as well as replacement of its badly deteriorated/broken windows. We are also proposing to undertake repairs to the Town Hall slate roof and are hoping for some benefits of scale and adjacency by bidding both these slate roof projects at the same time. CPC is recommending repairs to the Town Hall Bell/Clock tower. All of these projects were identified and designed through engineering work funded by Town Meeting over the past 2 meetings. Complete replacement of the Town Hall HVAC system remains beyond financial reach at this time and CPC is recommending substantial immediate repairs to that system to keep it operational.

Beyond building projects, with the start of the last of the Town's flood mitigation projects about to begin (the Muraco culvert or Project 10), CPC is recommending funding an update to the Army Corps flood plain map. Savings to town residents, whose properties get moved out of the flood plain as a result of this remapping, should be substantial.

In addition to the Trommel Screener mentioned above, funding for an assortment of other DPW vehicles and equipment is also recommended, and Road and Sidewalk repairs are recommended for full funding.

The CPC is recommending funding Shore Road culvert construction. Construction repairs to the Everett Ave culvert are not ready to proceed at this time.

CPC is recommending that $125,000 be allocated to the ADA account. This amount was established by the Select Board over a decade ago and while this account is just a part of the Town's overall efforts in making Winchester accessible, CPC believes this amount should be increased. The town is currently updating its ADA transition plan and once that update is complete, CPC will recommend that the Select Board review the annual amount allocated toward that effort.

Last year CPC recommended a study for the rehabilitation of the long ignored, century-plus-old, Packer-Ellis tennis courts. That study was completed and presented to the Select Board. The results of that study were sweeping and probably not affordable by the town. Those concepts now need to be refined and turned into practical projects given the very real budget constraints the Town faces. Town Management, working with the Select Board and stakeholders, will begin that process and CPC is recommending funding engineering work to develop an achievable path forward for renovations. Given that the size of repairs to the facility is likely well beyond the ability of the CSF to support, it is hoped that the Community Preservation Act (CPA) will be passed this fall by the town and that this project could be a model on how Town capital goals could be achieved through the support of multiple funding sources including the CPA, the CSF, and possibly the Water & Sewer Enterprise fund.

CPC is recommending that funds from the Cemetery Perpetual Care Fund not be allocated this year and be rolled over into FY 27 to allow funding of an additional Columbarium.

There are $2.35 million in proposed Water and Sewer Enterprise Fund projects this cycle that will be funded through a combination of retained earnings and MWRA loan/grant programs. These projects include addressing water quality issues in the south Cambridge St area and addresses Infiltration and Inflow (I&I) in the upper east portion of town.

Challenges Remain (we are not out of the woods)

CPC has completed its evaluation of capital project requests submitted by Town Departments for the next 5 years and the outlook remains disturbing. That review, which now includes projects being generated by the Town's VFA system, shows nearly $45 million in building projects and $36 million in capital projects over the next 5 years.

While great strides will be made this year, this year's review of capital projects started with over $25 million in building projects this cycle alone. There are nearly $17.5 million in building projects for which the town now has complete or nearly complete engineering designs. These projects, while important and worthy of funding, were considered of lower priority or beyond the reach of funding at this time.

Over the next 3 capital cycles, the town will need to replace nearly $2.5 million in Fire Department equipment. Given the 1 to 2 year lead time for Fire Pumpers and Ladder Trucks, CPC has begun reserving CSF funds for that equipment. Even so, those required expenses will place considerable stress on the CSF in those years.
The stabilization funds alone are still unable to support the number of projects of these magnitudes and alternate sources of funding (Override, Free Cash, etc.) will be required. CPC will continue to work closely with the Select Board seeking Free Cash when available, responsible bonding when appropriate, and debt exclusions when required.

We would like to thank the Department Heads, Select Board, and especially Mark Twogood, Assistant Town Manager and Margaret White, Special Projects Manager for all your hard work in preparing the FY 26 Capital Plan.

Roger McPeek, Chair

This year the CPC anticipates the use of the following funds for the FY 26 Capital Projects:

Capital Stabilization Funds	$3,045,000
Building Stabilization Funds	$3,885,000
Water Sewer Borrowing	$1,950,000 *
Water Sewer Retained Earnings	$ 550,000
Free Cash –	$2,200,000
Borrowing	$4,000,000
Total:	**$15,630,000**

*Woodside Road Pump Station has not been fully designed yet, so an estimate has not been developed yet

This year alone there were more than $80 million in Capital Stabilization Fund, Building Stabilization Fund and Water Sewer requests. The table below summarizes the FY 26-30 request totals.

Capital Planning Five Year Summary Table

Department	**FY 26**	**FY 27-30***	**5-Year Total**
ADA	$125,000	$500,000	$625,000**
DPW Buildings	$25,845,000	$14,991,600	$40,836,600
DPW Cemetery	$0	$350,000	$350,000
DPW Roads & Sidewalks	$500,000	$2,262,816	$2,762,816
DPW Vehicle/Equipment	$535,000	$1,990,000	$2,525,000
DPW Water & Sewer	$3,450,000	$1,600,000	$5,050,000
Engineering Bridges	$1,030,000	$0	$1,030,000
Engineering Transportation	$510,000	$15,360,000	$15,870,000
Fire Department	$57,000	$2,332,000	$2,389,000
Police Department	$0	$667,500	$667,500
Recreation	$750,000	$4,339,000	$5,089,000
Schools	$712,000	$3,043,251	$3,755,251
Town Manager	$149,332	$0	$149,332
Totals:	**$33,663,332**	**$47,436,167**	**$81,099,499**

*FY 26-29 are estimated amounts

** The Transition Plan is currently being updated and expect 5-year total to increase

The Five-Year Total is more than $80 million.

The Building Stabilization Fund (BSF) is used for building maintenance, repairs and new construction. The Capital Stabilization Fund (CSF) is used for fields and playgrounds, roads and sidewalks, equipment, flood mitigation and bridge repair. After the funds available for the FY 26 capital budget were allocated, there remain unfunded projects which include, in no particular order:

- Town Hall HVAC Replacement Project
- Lincoln School Sitework/Flatwork
- Lincoln School Chiller
- Mystic School Window Replacement
- Carriage House Roof Replacement
- Symmes Corner Intersection Study
- Winter Pond Water Quality Improvements
- Wedge Pond Water Quality Improvements
- Ridge Street at Lockland Road Intersection Study
- Westland Road at Wildwood Street Intersection Improvement
- Traffic Calming Project

Fall Town Meeting - FY26 CPC Recommended Projects

Fall Town Meeting Building Projects

Building Stabilization Fund	
1. Town Hall HVAC – Immediate Repairs	$500,000
2. Department of Public Works Complex Emergency Generator	$250,000
3. High School Concrete Underslab Repair & Remediation	$845,000
Sub-Total Building Stabilization Fund Projects	**$1,595,000**
Borrowing/Free Cash ($2,000,000 Free Cash, $2,975,000 Borrowing)	
1. Town Hall Roof & Clock Tower / Library Roof & Windows	$4,975,000
Borrowing/Building Stabilization Fund ($1,935,000 BSF, $1,025,000 Borrowing)	
1. McCall Middle School & Ambrose School Roofs	$2,960,000
Sub-Total all Building Projects Fall Town Meeting	**$9,530,000**

Fall Town Meeting Capital Projects

Capital Stabilization Fund

1.	Shore Road Culvert Repairs	$690,000
2.	Dump Truck & Salter (DPW)	$295,000
3.	School District Access Controls	$270,000
4.	High School & McCall School Security Cameras	$140,000
5.	Ginn Field Lights (supplemental funds)	$150,000
6.	Trash Truck Cab & Chassis (DPW)	$90,000
7.	Trommel Screener (DPW)	$100,000
8.	Vinson Owen Playground Surface (supplemental funds)	$80,000
9.	Pedestrian Safety RRFBs	$40,000
	Sub-Total Capital Stabilization Fund Projects Fall Town Meeting	**$1,855,000**

Fall Town Meeting Free Cash

1.	Packer Ellis Tennis Courts Engineering	$**200,000**

Fall Town Meeting Water & Sewer Enterprise Projects

Retained Earnings:

1.	Trailer Generator - Water & Sewer	$125,000 Borrowing
1.	Cambridge Street Engineering (water quality)	$200,000
2.	I&I East Side Sewer Rehabilitation Project (MWRA)	$1,750,000
	Sub-Total Water & Sewer Fall Town Meeting	**$2,075,000**

Total Fall Town Meeting - FY26 CPC Recommended Projects: $13,660,000

Spring Town Meeting - FY26 CPC Recommended Projects

Spring Town Meeting Building Stabilization Fund

1. High School Concrete Topside Repair & Remediation	$355,000 est. Sub-
Total Building Stabilization Fund Projects	$**355,000 est**.

Spring Town Meeting Capital Stabilization Fund

1. ADA Transition Plan	$125,000
2. Everett Avenue Culvert Repairs	$340,000
3. DPW Roads & Sidewalks	$500,000
4. Flood Plain Map Updates	$175,000
5. DPW – Roadside Brush Cutter	$50,000
Sub-Total Capital Stabilization Fund Projects Spring Town Meeting	**$1,190,000**

Spring Town Meeting Water & Sewer Enterprise Retained Earnings

1. Computer Programming Water Treatment Plant	$75,000
2. Water Meter Replacement Program	$200,000
3. MS4 Permit – Engineering	$150,000
Sub-total Retained Earnings Projects Spring Town Meeting	**$425,000**

Borrowings

1. Woodside Road Pumping Station Construction	TBD
Sub-total Water & Sewer Enterprise Spring Town Meeting	**$275,000**

Total Spring Town Meeting - FY26 CPC Recommended Projects	**$1,970,000**

FY 26 Project Descriptions – Fall Funding

BUILDING STABILIZATION FUND

Town Hall HVAC Immediate Repairs
The Town Hall HVAC system was installed in the late 1980s and is at the end of its useful life. There are many components of the system that must be replaced on a large scale, as the complete replacement of the system has not been funded. The focus of this appropriation will be on the replacement of components that are failing in order to keep the operational. It will not address the issue of a lack of fresh air which is causing other concerning issues in the lower level of the building. Until the HVAC system is replaced this request will be made annually to keep the system up and running.

DPW Complex Emergency Generator
This request will fund a new emergency generator for the DPW complex. The existing generator, which is over 50 years old, has failed and cannot be repaired under existing code requirements.

High School Concrete Floor Construction
This request will fund the initial phase of repair and remediation of failing concrete and reinforcing steel at Winchester High School. This first phase of repair will include the application of a surface applied corrosion inhibitor to the underside of the first-floor slab, which can take place during the school year. The second phase of repairs, which we hope to have ready for Spring Town Meeting, will involve selective demolition, repair and reconstruction to limited areas of the topside of the first-floor concrete. This fall appropriation includes additional inspection, design and engineering as well as cost estimates for the subsequent topside work so that a Spring Town Meeting appropriation will permit summer repairs.

Town Hall Roof & Clock Tower / Library Roof & Windows
This request will fund the final design and the repairs/replacement for the Town Hall Roof and clock Tower and the Library Roof and original windows. Town Meeting previously appropriated funds for schematic level design and engineering, as well as immediate repairs to the library roof to address active leaks. This request funds the completion of the project.

McCall Middle School and Ambrose School Roofs
This request will fund the final design and the repairs/replacement of older portions of the McCall Middle School roofs and Ambrose Elementary School Roof. Town Meeting previously appropriated funds for schematic level design and engineering. This request funds the construction portion of the project.

CAPITAL STABILIZATION FUND

Shore Road Bridge Construction

This request will fund the construction of the required repairs to the Shore Road Bridge. Fall 2023 Town Meeting funded engineering design and permitting of improvements to the Shore Road culvert/bridge to bring it into a state of good repair. This request funds the completion of the project.

Dump Truck & Salter

This request will fund a new six-wheel 35,000 GVW dump truck for use by the DPW for road/groundwork as well as snow and ice operations. This new vehicle will replace a 1999 truck that is no longer able to pass inspection and is being taken offline.

School District Access Controls

This request will fund the replacement of the district wide access control system. The current system limits the district's ability to implement security updates and integrate with modern technologies. By replacing the system district-wide, the focus is to implement an interoperable system, utilizing interchangeable hardware and software. This approach ensures compatibility and flexibility for future upgrades and expansions. The timing of this upgrade is critical, as it aligns with the construction and opening of the new Lynch Elementary School. This allows the entire district to be equipped with the same standard that the New Lynch is being built to along with new access ID cards before school opens in 2025. This comprehensive upgrade will enhance the overall security and safety of the district's facilities, providing a modern and reliable access control infrastructure for all schools.

High School & McCall School Security Cameras

This request will fund the replacement of older security cameras at Winchester High School and McCall Middle School. The existing cameras are either malfunctioning, offline or in need of replacement due to age.

Ginn Field Lights

This request will supplement the appropriation previously made by Town Meeting for the replacement of the Ginn Field Athletic Light fixtures and poles. The current lights are 30 years old and have many deficiencies. The new lights will utilize LED Lamps which provide better and more efficient lighting, and less spill over to nearby residents and less glare. After completing a rigorous design and permitting process the final estimates exceeded the balance of the original appropriation. This request funds the completion of the project.

Packer Ellis Tennis Courts Engineering

This request will fund the next phase of design and engineering of the rehabilitation of the Packer-Ellis Tennis Court Facility. The facility is over 100 years old and is well loved by all who use it, but has many deficiencies that must be addressed. It is utilized by more than 1500 people a year including the Winchester High School Tennis teams. Town Meeting previously appropriated funding for the schematic design phase and this appropriation will allow the project to move into the design development phase.

Trash Truck Cab & Chassis
This request will fund a new six-wheel GVW cab and chassis truck for use by the DPW Streets Department for use as a trash truck. The existing vehicle is 12 years old and is no longer reliable.

Trommel Screener
This request will fund the purchase of a new screener. Currently the DPW rents a screener for a month at a cost of approximately $20,000. The screener is used at the Transfer Station to screen the leaves, branches and woodchips for use by residents. The cost of the Trommel Screener is approximately $190,000. We have received a State Earmark for $100,000 towards this equipment this request is for the balance.

Vinson Owen Playground Surface (supplemental funds)
This request will supplement the funding previously appropriated by Town Meeting. This project consists of the demolition of the existing rubberized play surface at the Vinson Owen Elementary School and replacement in kind at both the elementary and kindergarten play surface.

Pedestrian Safety RRFB's
This request will fund the design and installation of 2 (pairs) RRFBs. RRFBs are pedestrian-actuated enhancements used in combination with a pedestrian, warning signage to improve safety at uncontrolled, marked crosswalks, typically on higher volume and/or speed roads. They provide a high-visibility strobe-like warning to drivers when pedestrians use a crosswalk. Staff is recommending placement of the RRFB's at Main Street at the Mystic School and at Highland Avenue at Wolcott Road. These are staff recommendations and are subject to the review/approval process by the Select Board.

WATER & SEWER ENTERPRISE FUND

Trailer Generator
This request is to fund a new towable 100KW generator that can be used at the various pump stations throughout town. The current generator is over 30 years old and is no longer capable of supplying enough power to run a station and keep up with the flows during a storm event.

Cambridge Street Engineering
This request will fund the design and engineering of the water lining project on Cambridge Street. Residents along this line have been experiencing high levels of iron suspended in their water due to age of the cast iron piping.

I&I East Side Sewer Rehabilitation Project
This request will fund the next phase of the I/I East Side CIP Project. These projects (previously funded by Town Meeting over the past decades) are required by MassDEP for the maintenance of the town's sewer collection system.

MS4 – Year 8
This request funds year 8 of the USEPA MS4 Permit. Town Meeting has funded the previous 7 years of this project ensuring that the Town is in compliance with the Permit requirements.

Capital Planning Process

The process for evaluating capital project requests begins in June of every year and culminates at Fall Town Meeting. All elected and appointed Boards, Committees and school and municipal departments are requested to submit next FY requests and projected 5 year needs in order to create a comprehensive five- year needs assessment for the Town. This year participation includes School Committee, Select Board, Town Manager, Energy Management Committee, Disabilities Access Commission, and virtually all municipal department heads. These requests are processed by Town staff, reviewed by Town management, and submitted to the CPC for evaluation and prioritization.

The CPC consists of the following members per the Town's charter. Two members appointed by the Finance Committee, one member appointed by the Planning Board, one member appointed by the School Committee and three members appointed by the Select Board. The makeup of the CPC was designed to be inclusive of multiple viewpoints and relies on each member representing an appointed Board or Committee to report back to said Committee and also bring forward concerns and/or issues back to the CPC.

The CPC in evaluating each project relies on each Town entity submitting a proposal to take into consideration their immediate and long-term capital needs. A major tool that is used by the Town in developing our long-term immediate building repairs is the VFA/Gordian Building Envelope Program. This program helps to develop the expected life cycle and cost estimates for building system maintenance upgrade and replacement.

While the Town Manager is ultimately responsible for the town capital plan, through its active participation and guidance in the prioritization process, Town management allows residents to influence the capital process through its elected and appointed representatives. This program allows for long term capital planning which helps the Town prioritize its five-year plan and align with the desires of town residents.

Additionally, the Department of Public Works and the Engineering Department have developed a comprehensive program for sewer, water, drainage, roads, traffic, sidewalks and flood mitigation projects. The Field Management Committee together with the DPW and School Department have developed a five- year field improvements plan. All of these tools utilized by the various Town agencies contribute to the development of a comprehensive plan for maintaining and improving the Town infrastructure and assets.

Project Evaluation Criteria

Fundamental to Capital Planning evaluation is a ranking process that allows the CPC to evaluate each individual project in a consistent manner. The ranking is based on the following criteria:

- Public Health and Safety
- Mandates by State or Federal Government
- Necessary for Maintenance of Town Assets
- Demonstrated Increased Efficiency and /or Cost Savings

Each project request is required to address the following items when submitting to the CPC.

1) Expected lifetime of the item/project.

2) Expected operating costs of and manpower available to complete or use the item or project.
3) Comparison of purchasing versus leasing or outside contracting of the service and, where relevant, the cost of multi-town sharing of resources or equipment.
4) Need for the item/project and its effect on the operating budget-what it might save in maintenance and repair.
5) Departmental priorities for the current year's projects/items.
6) Cost estimates of the item/project, supported by bids or quotes whenever possible.
7) A plan detailing item/projects awarded during the past three (3) years and those to be requested over the next three (3) years.
8) A schedule of implementation for approved items and projects, including a timeline within the proposed FY.

One of the critical steps in completing the CPC's evaluation of each project is meeting individually with department representatives seeking project funding. In these meetings we discuss where the request fits into the overall goals for departmental long-range capital plans. In this process each party submitting a request is asked to ensure that alternative strategies for meeting their needs have been considered. It is also required that each party has evaluated utilizing alternative funding sources as well, if available.
